## Description

The Diploma in Creative Industries (previous title: University Diploma in Creative Industries), which has intakes for international students in February, June and October, is primarily a pathway for entry to bachelor degrees within Creative Industries, with the Bachelor of Creative Industries KK33 being the most prevalent course progression pathway. Students gain coherent and integrated theoretical, technical and practical knowledge with emphasis on developing technical, analytical, decision-making, problem solving, teamwork and communication skills in well-defined, structured environments and with real world application.

In this program, students study six faculty units as well as two units of Communication which have been designed to support their other units. Small lectures and tutorials, additional workshops and the support of Language and Welfare Advisers provide an excellent learning environment.

## Course Completion

Students must obtain at least a grade of 4 (Pass) in all units.

## Progression

Students who successfully complete the Diploma of Creative Industries and achieve a GPA of 4.0 will **receive one year's advanced standing** and be **guaranteed a place in one of the available bachelor programs** from the Creative Industries Faculty.

**96 credit points of advanced standing with:**

**4 semesters to complete:**

## Professional Recognition

This course, along with the following Master of Architecture course, has received full accreditation from the Architects Accreditation Council of Australia, and full recognition from the Australian Institute of Architects.

## Domestic Course structure Customise your degree

Your architectural studies design course consists of 18 units in your primary major and four units that are common to all six design majors (architectural studies,

fashion, industrial design, interactive and visual design, interior design or landscape architecture).

An additional eight units are taken outside your primary major. After studying for a year you can:

- choose a second major# (eight units from any approved QUT degree), or
- choose two minors (a minor is a specific set of four units drawn from courses throughout QUT), or
- choose one minor and four electives.

Minors and majors allow you to tailor your studies to suit your interests and career aspirations. Minors give you breadth of knowledge from two other areas and a second major provides depth in one area. This means eight units of your course (one quarter of your degree) are taken from outside your primary major. You'll work alongside students from other disciplines because that is how it will be when you graduate and work in the real world of design. The possibilities are almost endless.

Here are some examples that might inspire ideas:

- an architecture student could take a minor in interior design and a work integrated learning minor to gain professional industry experience
- a landscape architecture student could take a language minor such as Italian to help them work overseas
- an interior design student could take a second major in industrial design to aid their ambition to design and manufacture their own range of office furniture
- an industrial design student could take a second major in mechanical or electrical engineering to give them a deeper understanding of manufacturing and production
- a fashion student could take a minor in business and another in interior design to help meet their dream of launching their own concept fashion store
- an interactive and visual design student could take a second major in advertising or marketing and work as a designer for a leading digital agency.

And remember - your second major or minors could be in film, creative writing, music, visual arts, drama or other disciplines across QUT. #

## Your course

### Year 1

- three foundation units covering design, design history and sustainability
- two units in introductory core architecture design studios
- first unit dealing with place making

### Year 2

- two design studio units covering the process of design, dwelling, tectonics and public spaces
- units in integrated technology (climate) and history/theory (culture and space)
- study history/theory (architecture in the twentieth century) and architectural technology (building construction)
- first two units of your second major or first minor

### Year 3

- units focusing on digital tools and sustainability
- develop knowledge of technology integration (structure)
- study history/theory (architecture and the city), and architectural technology (building services)
- three units in your second major or minors

### Year 4

- address the context of buildings in urban settings
- design project integrating your accumulated knowledge
- complete your second major or your second minor

## Masters course

This course is designed to be followed by QUT's one-year Master of Architecture. In addition, to work as a registered architect in Australia you will need to:

- have completed two years of practical work experience (one year of which may be during your studies)
- successfully complete the Architectural Practice Examination
- apply for registration to the Architects' Board in each state or territory in which you wish to practise.

## Study overseas

Study overseas while gaining credit towards your QUT creative industries degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course. Saving your electives for exchange will allow you the

most flexibility. For more information, visit [QUT student exchange](#).

Successful portfolio and meeting the minimum OP/Rank score.

### What happens next

How do I find out my portfolio outcome?

During the week preceding 21 December, QUT will update the preference information within your QTAC application to reflect your portfolio outcome. You will be able to check this via [QTAC's Application Services](#). If you are unsure how to check your preference status there is a helpful video located on [QTAC's Check & change webpage](#).

What information will I see?

Within your Preferences tab you will see one of the following statuses:

- Based on the information currently held by QTAC you have satisfied the minimum entry requirements in order to be considered for a place in this course.
- Based on the information currently held by QTAC you have not satisfied the minimum entry requirements in order to be considered for a place in this course.

What does this mean?

If you have satisfied the minimum entry requirements for this course you will be considered for a place in the course in the 21 December 2017 QTAC offer round. While offers will be made from 21 Dec, a majority of offers will be made during the Major offer round on 16 January 2018. Depending on course place availability, further offers may be made in subsequent [QTAC offer rounds](#).

Please note that meeting the minimum entry requirements does not guarantee a QTAC offer will be made as there are usually more eligible applicants than places available in the program.

Successful applicants will only receive one offer at QTAC, to their highest eligible preference.

If you have not satisfied the minimum entry requirements, QUT will not be able to offer you a place in the course. You may wish to review your QTAC course preferences. They can be added or amended via [QTAC's Application Services](#). For more information on changing preferences, you can contact QTAC Information Services on 1300 GO

QTAC (1300 467 822) or (07) 3858 1222.

After graduation, you can return to complete the remaining 12 units (or equivalent) from your second major to obtain a second qualification. This

is usually undertaken part time over two years while working.

Note: This is not a double degree because it is not undertaken simultaneously with the first degree.

## Example

A student completes a Bachelor of Design (Honours) (Industrial Design) with a second major in interactive and visual design.

They can then return to complete units in interactive and visual design and graduate with a second design degree in interactive and visual design.

Your industrial design course consists of 17 units in your primary major and four units that are common to all six design majors (architectural studies, fashion, industrial design, interactive and visual design, interior design or landscape architecture).

An additional eight units are taken outside your primary major. After studying for a year you can:

- choose a second major (eight units from any approved QUT degree), or
- choose two minors (a minor is a specific set of four units drawn from courses throughout QUT), or
- choose one minor and four electives.

Minors and majors allow you to tailor your studies to suit your interests and career aspirations. Minors give you breadth of knowledge from two other areas and a second major provides depth in one area.

This means eight units of your course (one quarter of your degree) are taken from outside your primary major. You'll work alongside students from other disciplines because that is how it will be when you graduate and work in the real world of design. The possibilities are almost endless. Here are some examples that might inspire ideas:

- an architecture student could take a minor in interior design and a work integrated learning minor to gain professional industry

experience

- a landscape architecture student could take a language minor such as Italian to help them work overseas
- an interior design student could take a second major in industrial design to aid their ambition to design and manufacture their own range of office furniture
- an industrial design student could take a second major in mechanical or electrical engineering to give them a deeper understanding of manufacturing and production
- a fashion student could take a minor in business and another in interior design to help meet their dream of launching their own concept fashion store
- an interactive and visual design student could take a second major in advertising or marketing and work as a designer for a leading digital agency.

And remember - your second major or minors could be in film, creative writing, music, visual arts, drama or other disciplines across QUT. #

## Your course

### Year 1

- learn about design process, and physical and aesthetic function
- three foundation units covering design, design history and sustainability
- explore symbolic function, ergonomics, product usability and the use of digital media and sustainability

### Year 2

- focus on the key aspects of how products are made
- study CAID systems
- understand the social and cultural issues of design
- commence your second major or first minor units

### Year 3

- bring together your accumulated knowledge to design realistically detailed products suitable for manufacture
- learn to work with other professionals
- study how to bring products to the market
- second major or minor units continue

### Year 4

- apply design research to develop innovative product solutions
- learn about professional practice
- prepare to adopt a leadership role in design
- conclude your second major or

minor studies

### Second degree

Undertaking a second major in one of the six design disciplines also gives you the option of obtaining a second degree\*.

After graduation, you can return to complete the remaining 12 units (or equivalent) from your second major to obtain a second qualification. This is usually undertaken part time over two years while working.

Note: This is not a double degree because it is not undertaken simultaneously with the first degree.

### Example

A student completes a Bachelor of Design (Honours) (Industrial Design) with a second major in interactive and visual design.

They can then return to complete units in interactive and visual design and graduate with a second design degree in interactive and visual design.

\* To pursue a second design degree, this second major must be an approved set of eight units from within a Bachelor of Design (Honours) primary major.

# The choice of second majors may be limited in some disciplines.

### Study Overseas

Study overseas while gaining credit towards your QUT creative industries degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course. Note: This is not a double degree because it is not undertaken simultaneously with the first degree.

### Example

A student completes a Bachelor of Design (Honours) (Industrial Design) with a second major in interactive and visual design.

They can then return to complete units in interactive and visual design and graduate with a second design degree in interactive and visual design.

\* To pursue a second design degree, this second major must be an approved set of eight units from within a Bachelor of Design (Honours) primary major.

# The choice of second majors may be limited in some disciplines.

### Study Overseas

## Domestic Entry requirements Important information for 2014 applicants

### I have listed Fashion as a preference on my QTAC application

#### What happens next?

#### I have not registered with QUT.

If you have not registered for an audition and submitted the required additional entry documentation QUT will not be able to offer you a place in the course. You may wish to review your QTAC course preferences; they can be added or amended via QTAC's [Current Applicant online service](#). For more information on changing preferences, you can contact QTAC Information Services on 1300 GO QTAC (1300 467 822) or (07) 3858 1222.

#### I have registered with QUT and provided the additional entry documentation.

Thank you for registering for an audition for entry into one of the above courses at QUT. The following information will help you understand what will happen after the audition process.

#### How do I find out my audition outcome?

#### I have not been shortlisted for an interview

If you have not been shortlisted for an interview QUT will not be able to offer you a place in the course. You may wish to review your QTAC course preferences; they can be added or amended via QTAC's [Current Applicant online service](#). For more information on changing preferences, you can contact QTAC Information Services on 1300 GO QTAC (1300 467 822) or (07) 3858 1222.

#### I have been shortlisted for an interview

Shortly after the 22nd of November 2013 QUT will update the preference information within your QTAC application to reflect your interview outcome. You will be able to check this via QTAC's [Current Applicant online service](#). If you are unsure how to check your preference status there is a helpful video located on this web page.

#### What information will I see?

Within your Preferences tab you will see one of the following statuses.

- Based on the information currently

held by QTAC you have satisfied the Minimum Entry Requirements in order to be considered for a place in this course.

- Based on the information currently held by QTAC you HAVE NOT SATISFIED the Minimum Entry Requirements in order to be considered for a place in this course.

#### What does this mean?

If you have satisfied the minimum entry requirements for one of the above courses you will then be considered for a place in the course in the 12 December, 2013 QTAC offer round. Depending on course place availability, further offers may be made in the 16 January, 2014 QTAC offer round. As more applicants will meet the minimum entry requirements than available course places meeting the minimum entry requirements does not guarantee a QTAC offer will be made. Successful applicants will only receive one offer at QTAC, to their highest eligible preference.

If you have not satisfied the minimum entry requirements QUT will not be able to offer you a place in the course. You may wish to review your QTAC course preferences; they can be added or amended via QTAC's [Current Applicant online service](#). For more information on changing preferences, you can contact QTAC Information Services on 1300 GO QTAC (1300 467 822) or (07) 3858 1222.

## Career Outcomes

Graduates use their skills for a variety of professional functions across all industry sectors. Many work in marketing communications, public relations or corporate communications. Others apply their broad media knowledge in the media function of advertising, either as sales executives for media outlets or as media planners and buyers for advertising agencies.

Careers exist in audience and market research, collating and analysing audience data to help media outlets better understand who their audiences are and how they are interacting with their product. Graduates also find employment in media policy development in the public sector and private enterprise. Pathways exist to prepare you for further study including honours.

If you wish to use your business knowledge more in your career, you could gain employment in arts administration—marketing, managing or balancing the books for creative projects and businesses.

The combination of media and communication with advertising, marketing or public relations provides proven professional outcomes in media sales, media marketing and promotions, and in media planning/ buying for advertising agencies. You will also develop the entrepreneurial and business skills necessary to sell your abilities to a range of employers, or start your own creative enterprise. Please refer to the QUT Business School prospectus to find out more about the business majors.

## Pathways to Further Studies

In 2001, an accelerated Honours program was introduced to increase the number of Bachelor of Information Technology students continuing their studies to complete the Honours year. The program allowed selected high achieving students the opportunity to undertake one postgraduate unit in the final semester of their a BIT degree (or double degree) which would be counted both for completion of the degree and towards the Honours program. The program also provided students with the opportunity to commence their Honours studies over the Summer Semester.

An alternative to the Honours program is the Master of Information Technology (Research). Students who complete a BIT degree (or double degree) with a grade point average equal to, or greater than 5 (7 point scale) and who have decided against enrolling in an Honours program, could undertake this course. In addition, students may wish to enrol in the re-designed postgraduate coursework Masters which has ten specialisations allowing students to either extend their area of interest or specialise in other areas at the Masters level.

Alternatively, on successful completion of this course you will be eligible to apply for entry into the Bachelor of Fine Arts (Honours), provided you have met entry requirements.

## Cooperative Education

The Faculty of Science and Engineering's Cooperative Education Program gives you the opportunity of 10-12 months paid industry placement during your course where you can integrate real experience with what you're learning in your degree. Companies that QUT's Coop Ed students have worked with include Energex, Boeing, CITEC, CSC Mining, Environmental Protection Agency, Dialog,

In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.

## Graduate Destination Streams

The Faculty of Law has identified graduate destination streams for students undertaking a law or law double degree. This means that, as students learn more throughout their degree, they can choose their elective units in the areas of law in which they become interested. Students are not restricted to choose electives from a single stream; the streams are only to provide guidance to students in making their elective choices.

- Legal Practice
- General Legal Practice (work as a lawyer across a wide range of different legal areas)
- Specialist Legal Practice (work as a lawyer specialising in a particular area of the law, such as property law, family law or corporate law)
- Advocacy and Dispute Resolution (acting for clients in court or resolving disputes through negotiation and mediation processes)
- Public Sector (work as a lawyer in a government department)
- Private Enterprise (for those students not wanting to practise as a lawyer, but perhaps work within business management, human resources, information technology etc)

As students progress towards the end of their degrees there are more opportunities to participate in subjects where they engage in 'real world learning', for example, working within law firms and government departments in placement electives.

## Domestic Course structure

You will study a combination of creative industries and law units in the first four years, with law units only in the final years. You will also have the opportunity to choose elective units relevant to your

career interests.

## Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

In addition, successful completion of the law degree will allow you to pursue postgraduate opportunities through research- and coursework-based higher degrees in law.
