Course Structure

The Bachelor of Education is an exciting learning opportunity, which will challenge students to investigate, question, and create new knowledge about teaching and learning. The course has been designed using the principles of outcomes-based education; an educational approach that not only describes the long-term learning outcomes that are desired from the course, but which accepts that the learning pathway towards these outcomes may be different for individual students.

Students complete a total of 384 credit points of study and will specialise in two teaching areas comprising one major, appropriate for teaching senior and junior years of High School, and one minor, which is appropriate for teaching junior years of High School in Queensland. The teaching area studies are also referred to as discipline studies.

Students will undertake discipline studies, education-related studies and a minimum of 90 days of field study experience in a range of classrooms and other educational settings, and curriculum studies relevant to the selected teaching areas. Core education units will cover teaching and learning studies, technology studies, indigenous and sociocultural studies.

Please note that the Internship is to be taken as the final unit of study in the course, and successful completion of all other coursework is required before students can commence the final Internship unit EDB151.

Designated Units

Field studies units are designated units. Students who do not successfully complete the requirements of practicum units will have their progress in the course reviewed. Please refer to the unit outlines for more information and/or the Student Services website.

Study Areas for Domestic Students

Career Development:

The field of Career Development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA).

Early Childhood Teaching:

This study area will enable you to develop in-depth theoretical and practical

knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services. This is a dedicated study area which enables qualified teachers upon completion, to become early childhood specialists, both in schools and as leaders in child care settings.

Early Years:

This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

General Studies:

Students can choose a general studies Masters which does not provide a study area and consists of four (4) core units and eight (8) option units. This program can be tailored to suit your individual study needs and interests.

Inclusive Education:

While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and

health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Leadership and Management:

This study area focuses on building and enhancing leadership capacity in aspiring and existing leaders. The units provide leaders with requisite knowledge and understanding of central concepts connected to leading others, leading change processes, understanding and interpreting policy, and strategic managerial skills required in planning, monitoring and evaluating organisational systems.

School Guidance and Counselling (General or Career):

This study area is suitable for guidance officers seeking to advance their knowledge or qualified teachers seeking a career change. The School Guidance and Counselling study area is recognised by Education Queensland, Catholic Education, and Independent Schools as a Guidance Officer qualification in Queensland schools. School Guidance and Counselling 'General' will enable you to be eligible for employment from P-12. 'Career' is mainly for guidance and counselling in a secondary school as it also meets the Career Industry Council of Australia (CICA) professional standards.

Teacher-Librarianship:

This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. The study area is recognised by the Australian Library and Information Association (ALIA) for the five year period, March 2012-March 2017. Graduates are eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

Teaching English to Speakers of Other Languages (TESOL):

TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Study Areas for International Students

When choosing a study area, international students on a student visa are restricted by the ESOS Act and their agreement with QUT. Study Areas must be offered in full-time and internal mode, as international students are required to study four (4) units per semester. The study areas below are available to international students:

Domestic students may enrol in a minimum of one (1) unit per semester, but please be advised that the maximum course completion time must still be adhered to. In most cases you will not be able to complete your course in the maximum time with just one unit per semester (see below). However, they may require an exemption card if providing other child-related regulated services. Teachers registered in other states or countries, and students without Teachers Registration will need to apply, via the link below, for the appropriate card.

Career Development

The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA).

ASSUMED KNOWLEDGE:

If you have previously studied an introductory counselling unit or have counselling experience, you may satisfy the prior knowledge required to study LCN618 Advanced Educational Counselling without the prerequisite of LCN636 Introductory Educational Counselling. If you do not satisfy the prerequisite, you will need to undertake the unit LCN636 Introductory Educational Counselling early in your study as it is a prerequisite to many of the other units. If you believe that you have sufficient prior knowledge to waive the requirement to study LCN636, you will need to send an email to the study area coordinator, Ms Michele Moon (m.moon@qut.edu.au), with a copy to the course administrator, Sian Rodgie (sian.rodgie@qut.edu.au) and provide certified evidence of your previous study, and/or an original or certified letter, on letterhead from your employer. This waiver must be approved before you enrol in LCN618 or LCN622.

BLOCK DATES:

As part of your course, you have a BLOCK unit to complete as a core unit. This unit comprises of a 4 or 5 day intensive at Kelvin Grove Campus during Queensland school holidays and BEFORE semester begins. There will also be some further work throughout the remainder of the teaching period. If you are required to study LCN636, you should undertake it in your first semester of study if you have applied before the January or June cut-off date. The Block dates for Career Development are as follows: 13TP1 (Similar to semester 1) - LCN636 Introductory Education Counselling: Monday 4 - Thursday 7 January, 2016 (It is advised that you complete this unit in the block BEFORE your first semester of study). LCN636 is also offered in internal mode in semester 1 only, attending classes on campus each week at Kelvin Grove. SEMESTER 2 - LCN636 Introductory Education Counselling:

Monday 27 June - Thursday 30 June, 2016 (Unless previously completed, it is advised that you complete this unit in the block BEFORE your first semester of study); LCN618 Advanced Educational Counselling: Monday 27 June - Friday 1 July, 2016.

13TP1:

13TP1 is a teaching period that runs in conjunction with semester 1 each year. LCN636 is offered in this teaching period because the enrolment date is earlier than it is in semester 1. As the block is run so early in the year, the earlier enrolment date enables students to be better prepared for their January block unit. 13TP1 enrolment and census dates can be found on the 'Key Dates' page on the QUT website.

It is recommended that you apply early if you plan to commence the units offered via block mode in your first semester, as the block units commence prior to the start of the normal semester (eg January, and June or July).

Course Overview

EU70 Master of Education focuses on specialised study areas that are currently in demand and feature innovative areas. The course has a fresh new approach to learning that values both the individual component and peer-to-peer relationships.

This course will suit teachers, educators and graduates, with relevant employment experience, who are seeking to make a career change within education or enhance their existing education career.

The Master of Education does not lead to teacher's registration. Please refer to the Master of Teaching (Early Childhood or Primary) or the Graduate Diploma in Education (Senior Years) if you are seeking teacher registration.

EU70 Master of Education consists of twelve (12) units (144 credit points) selected from the postgraduate units. Course duration is one and a half (1.5) years internal or external full-time, or three (3) years internal or external part-time. Students have a maximum of four (4) years to complete the course.

Course Coordinator: Associate Professor Beryl Exley, b.exley@qut.edu.au, (07) 3138 3267, B434.

Early Childhood Teaching

This study area will enable you to develop in-depth theoretical and practical knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services. This is a dedicated study area which enables qualified teachers upon completion, to become early childhood specialists, both in schools and as leaders in child care settings. The study area is recognised by Australian Children's Education and Care Quality Authority as a specialist early childhood qualification.

When undertaking the unit EDN635 Field Studies in Early Childhood OR EDN641 Field Studies in Early Childhood: Birth to 5 Years, you must have current authorisation to work with children as applicable to the State in which you will be doing practicum and site visits. For Queensland schools, you need either a blue card (if you are not a Queensland registered teacher) or an exemption card (if you are a Queensland registered teacher). This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services / Forms webpage under Working with Children (blue card) at the bottom of the page.

Early Childhood Teaching study area coordinator: Dr Annette Woods, annette.woods@qut.edu.au, (07) 3138 3184, Room B438.

Administration Officer: Ms Sian Rodgie, educationenq@qut.edu.au, (07) 3138 3947, Room A215.

Early Years

This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children's health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

MINIMUM AND MAXIMUM UNIT

ENROLMENT:

Domestic students may enrol in a minimum of one (1) unit per semester, but please be advised that the maximum course completion time must still be adhered to. In most cases you will not be able to complete your course in the maximum time with just one unit per semester (see below). If you do not enrol in at least one (1) unit, you will need to apply for a leave of absence (see below). Failure to do so may result in the system automatically withdrawing you from your course. If you wish to enrol in more than four (4) units per semester, you will need permission, in writing, from the Course Coordinator.

MAXIMUM COURSE COMPLETION TIMES:

Students are required to adhere to the time limits for competing an award course (MOPP E4/4). EU70 Master of Education students have four (4) years to complete the course, inclusive of periods of leave of absence.

LEAVE OF ABSENCE:

If you've completed your first semester or teaching period, and you need to take a break from your studies, you can apply for a formal leave of absence:
<http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/interrupting-your-studies> If you are a commencing student and wish to start in a later teaching period, you can ask for your application to be considered and reassessed for the next available semester or teaching period by emailing: qut.pgapplications@qut.edu.au. Please consult the Maximum Course Completion Times before applying.

Inclusive Education

While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Inclusive Education study area coordinator: Dr Jenna Gillett-Swan, jenna.gillettswan@qut.edu.au, (07) 3138 3498, Room E420.

In most cases you will not be able to complete your course in the maximum time with just one unit per semester (see below). If you do not enrol in at least one (1) unit, you will need to apply for a leave of absence (see below). Failure to do so may result in the system automatically withdrawing you from your course. Teachers registered with the Queensland College of Teachers do not require a Blue Card or an exemption card when teaching at school or boarding school. However, they may require an exemption card if providing other child-related regulated services. Teachers registered in other states or countries, and students without Teachers Registration will need to apply, via the link below, for the appropriate card.

This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services website: <http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards>

If you are applying for credit for specific units, you will need to provide detailed unit/subject outlines from your previous study. You can also apply for Advanced Standing based on work or industry experience. Advanced standing is not able to be awarded for normal teaching experience. If you are responsible for an original academic work, such as creating a course and/or curriculum, or have published any original research etc. then you may be eligible for credit for work or industry experience. you should apply in the semester that you expect to exit, using an 'SRX Form'. A link to this form can be found on the following page:

<https://www.student.qut.edu.au/forms#h2-7> If you take this option you will need to withdraw yourself from the Master of Education EU70 course (via e-Student) once the SRX form has been approved. This course will suit teachers, educators and graduates, with relevant employment experience, who are seeking to make a career change within education or enhance their existing education career.

The Master of Education does not lead to teacher's registration. Please refer to the Master of Teaching (Early Childhood or Primary - subject to approval) or the Graduate Diploma in Education (Senior Years) if you are seeking teacher registration.

EU70 Master of Education consists of twelve (12) units (144 credit points) selected from the postgraduate units. The School Guidance and Counselling study area is recognised by Education Queensland, Catholic Education, and Independent Schools as a Guidance Officer qualification in Queensland schools. School Guidance and Counselling 'General' will enable you to be eligible for employment from P-12. 'Career' is mainly for guidance and counselling in a secondary school as it also meets the Career Industry Council of Australia (CICA) professional standards. PLEASE NOTE: This qualification is only recognised by education employing authorities in Queensland.

There is a suggested plan for your progression through the course under 'Course Structures' ('Units' tab for prospective students). As there are prerequisites and concurrent requisites involved, you will need to take great care when selecting your units. You are permitted to enrol in a minimum of one (1) unit in a semester, but please consult the Maximum Course Completion Times, as in most cases you will need to enrol in more than one unit to complete in time. At the beginning of each year, it is imperative that you enrol in BOTH semester 1 and semester 2.

BLOCKS: As part of the School Guidance and Counselling study area, there are a number of units that are held in a one week BLOCK of intensive study at QUT Kelvin Grove Campus. These are usually held BEFORE semester begins.

Students in School Guidance and Counselling must have current authorisation to work with children as applicable to the State in which you will be doing practicum and site visits. For Queensland schools, you need either a blue card (if you are not a Queensland registered teacher) or an exemption card (if you are a Queensland registered teacher). This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services / Forms webpage under Working with Children (blue card) at the bottom of the page.

Course Overview

EU70 Master of Education focuses on specialised study areas that are currently in demand and feature innovative areas. The course has a fresh new approach to learning that values both the individual component and peer-to-peer relationships.

This course will suit teachers, educators and graduates, with relevant employment experience, who are seeking to make a career change within education or enhance their existing education career.

The Master of Education does not lead to teacher's registration. Please refer to the Master of Teaching (Early Childhood or Primary) or the Graduate Diploma in Education (Senior Years) if you are

seeking teacher registration.

EU70 Master of Education consists of twelve (12) units (144 credit points) selected from the postgraduate units. Course duration is one and a half (1.5) years internal or external full-time, or three (3) years internal or external part-time. Students have a maximum of four (4) years to complete the course.

Course Coordinator: Associate Professor Beryl Exley, b.exley@qut.edu.au, (07) 3138 3267, B434.

Teacher-Librarianship

This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. Recognition of the study area is being sought by Australian Library and Information Association (ALIA). Graduates may be eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

Integrated into the study area is a Situated Professional Practice (SPP) program across seven (7) of the twelve (12) units. The SPP program requires 60 hours of on-site activity in library locations, and the compilation of a Professional Portfolio. The purpose of SPP and the Professional Portfolio is to provide students with opportunities to engage in authentic, real-world learning that will enable them to reflect on current professional practices, apply critical thinking and problem-solving, and make connections between theory and practice.

Students in Teacher-Librarianship must have current authorisation to work with children as applicable to the State in which you will be doing practicum and site visits. For Queensland schools, you need either a blue card (if you are not a Queensland registered teacher) or an exemption card (if you are a Queensland registered teacher). This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can

Master of Education (Teacher-Librarianship)

be found on the Student Services / Forms webpage under Working with Children (blue card) at the bottom of the page.

Course Overview

EU70 Master of Education focuses on specialised study areas that are currently in demand and feature innovative areas. The course has a fresh new approach to learning that values both the individual component and peer-to-peer relationships.

This course will suit teachers, educators and graduates, with relevant employment experience, who are seeking to make a career change within education or enhance their existing education career.

The Master of Education does not lead to teacher's registration. Please refer to the Master of Teaching (Early Childhood or Primary) or the Graduate Diploma in Education (Senior Years) if you are seeking teacher registration.

EU70 Master of Education consists of twelve (12) units (144 credit points) selected from the postgraduate units. Course duration is one and a half (1.5) years internal or external full-time, or three (3) years internal or external part-time. Students have a maximum of four (4) years to complete the course.

Course Coordinator: Associate Professor Beryl Exley, b.exley@qut.edu.au, (07) 3138 3267, B434.

Teaching English to Speakers of Other Languages (TESOL):

TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Please refer to 'course structures' for study area requirements and suggested course progressions.

TESOL study area coordinator: Dr Margaret Kettle, m.kettle@qut.edu.au, (07) 3138 3259, Room E324.

Administration Officer: Ms Sian Rodgie, educationenq@qut.edu.au, (07) 3138 3947, Room A215.

Enrolling

It is imperative that you enrol in both semester 1 and semester 2 units at the start of each year when you commence in semester 1.

Course Rules

UNIT DELIVERIES:

Please ensure you select the correct teaching period, class and location code for all units you are enrolled in. EXTERNAL: The unit will be conducted through the QUT Blackboard site and other online learning platforms. Regular access to an up-to-date computer and reliable internet access is imperative. You will not need to 'register into classes' if you study externally. INTERNAL: The unit requires regular attendance at classes on Kelvin Grove campus during semester. BLOCK: The unit is offered in a block of lectures during the January or June/July Queensland School Holidays, with attendance being over a number of days, usually Monday to Friday of a particular week (5 days attendance). Assessment is completed during the remainder of the semester via online learning platforms such as QUT Blackboard.

OPTION UNITS:

As part of your Masters study area, you are able to complete a number of option units which can be selected from any units listed under any of the study areas in EU70, with the exception of field studies/practicum units. Please refer to the Units or Course Structure tab (depending on whether you are looking at prospective or current student information) / EU70 OPTION UNITS.

MINIMUM AND MAXIMUM UNIT ENROLMENT:

Domestic students may enrol in a minimum of one (1) unit per semester, but please be advised that the maximum course completion time must still be adhered to. In most cases you will not be able to complete your course in the maximum time with just one unit per semester (see below). If you do not enrol in at least one (1) unit, you will need to apply for a leave of absence (see below). Failure to do so may result in the system automatically withdrawing you from your course. If you wish to enrol in more than four (4) units per semester, you will need permission, in writing, from the Course Coordinator.

MAXIMUM COURSE COMPLETION TIMES:

Students are required to adhere to the time limits for competing an award course (MOPP E4/4). EU70 Master of Education students have four (4) years to complete the course, inclusive of periods of leave of absence.

LEAVE OF ABSENCE:

If you've completed your first semester or teaching period, and you need to take a break from your studies, you can apply for a formal leave of absence:
<http://www.student.qut.edu.au/enrolment-and-orientation/enrolment/interrupting-your-studies> If you are a commencing student and wish to start in a later teaching period, you can ask for your application to be considered and reassessed for the next available semester or teaching period by emailing: qut.pgapplications@qut.edu.au. Please consult the Maximum Course Completion Times before applying.

WORKING WITH CHILDREN (BLUE CARD):

Students in Early Childhood Teaching; School Guidance and Counselling; or Teacher-Librarianship may require current authorisation to work with children as applicable to the State in which you will be doing field experience and site visits. You may need either a Blue Card, if you are not a registered teacher, or an

exemption card. Teachers registered with the Queensland College of Teachers do not require a Blue Card or an exemption card when teaching at school or boarding school. However, they may require an exemption card if providing other child-related regulated services. Teachers registered in other states or countries, and students without Teachers Registration will need to apply, via the link below, for the appropriate card.

This authorisation must be obtained before you can undertake your practicum or field studies units, or you may be withdrawn from the relevant unit and incur both academic and financial penalties. Application forms can be found on the Student Services website:
<http://www.student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards>

ADVANCED STANDING (Credit):

You can apply for Advanced Standing from prior study at an equivalent level to Masters study or you can apply for up to four (4) units of your 12 units from prior study at an equivalent level to Honours, Graduate Diploma, or Graduate Certificate study. Undergraduate study is not considered for credit and currency of prior study is considered. For further information, or an application form, please refer to the following website:

Location & duration

The expected duration of the Doctor of Philosophy is three to four years full-time, or six to eight years part-time. Full-time study is normally conducted on-campus at QUT. Part-time and external study options may be available depending on the project, infrastructure requirements and funding arrangements. Although QUT offers this flexibility, candidates must meet minimum attendance requirements and the university must be satisfied that adequate supervision and resources are available.

International student visas require on-campus study to be completed full-time.

Course structure

QUT adopts a project management approach. PhD candidates work closely with their supervisory team to meet collegially reviewed milestones leading to timely submission of a thesis for examination. QUT is proud of its record of timely completions and low attrition rates realised by this approach.

During candidature the supervisor and other key stakeholders will provide advice and direction to the candidate to encourage their participation in university scholarly activities such as research seminars, teaching and publication. The length of the thesis varies according to the topic, but should normally be no longer than 100,000 words, excluding bibliography.

Fees

Australian citizens and permanent residents will be awarded a Research Training Scheme (RTS) place. Domestic students are not required to apply for an RTS entitlement, as it will be automatically allocated. The RTS covers tuition fees but not other study related costs. PhD Students are entitled to four years full-time equivalent study under these schemes. Students who exceed this entitlement may apply to QUT for extension, however the University may charge fees for the period of the program, which exceeds the student's entitlement. The University determines the fee level for domestic and international students.
