Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English
- Maths B
- Physics

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- Physics

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

Accreditation for the course is currently being sought with the Medical Radiation Practice Board of Australia.

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Honours pathway

At the end of the second year of study in this course, you will have the option to apply for the Bachelor of Medical Imaging (Honours). Entry to the program is competitive, based on grade point average. On entry to the course you will retain all of the credit you have successfully completed in the Bachelor of Medical Imaging and will complete a

further two years of full-time study which will include an honours research project.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or equivalent) in medical science or a health science field in the past ten years.

If you have completed your degree more than ten years ago you must provide evidence of graduate work experience and/or further studies since course completion with your QTAC application to receive further consideration.

Completed graduate diplomas, masters and/or doctorates are the accepted equivalents.

Selection ranks

You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one year of advanced standing which will entitle you to complete the degree in two years (full time).

Minimum English requirements

Students must meet the English proficiency requirements.

Professional recognition

The course is accredited by the Council of Ambulance Authorities and graduates are eligible for membership of Paramedics Australasia.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Mandatory Pre-course Workshops

Graduate entry students are expected to attend pre-course workshops during

Orientation Week. In 2015, Orientation Week begins on 1 February.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 4831 or email paramedic@qut.edu.au

Domestic Entry requirements

Academic entry requirements
A recognised Australian medical science or health science bachelor degree completed within the past 10 years with a grade of 4 (on QUT's 7 point scale) or better in the following QUT units or recognised equivalents:

- [CSB520 Disease Processes](#)
- [CZB190 Chemistry for Health Sciences](#)
- [LSB131 Anatomy](#)
- [LSB250 Human Physiology](#)
- [PUB561 Statistical Methods in Health](#)

Selection ranks

You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one and a half years of advanced standing which will entitle you to complete the degree in two and a half years (full-time).

Application closing date: 26 April

Applications and new preferences received after this date will not be accepted.

International Entry requirements

Prerequisite

A recognised Australian medical science or health science bachelor degree completed within the past 10 years with a grade of 4 (on QUT's 7 point scale) or better including with a pass grade in the following QUT units or recognised equivalents:

- [CSB520 Disease Processes](#)
- [CZB190 Chemistry for Health Sciences](#)
- [LSB131 Anatomy](#)
- [LSB250 Human Physiology](#)
- [PUB561 Statistical Methods in Health](#)

Working with Children Check: blue card

You will need to apply for a blue card because you will be working with children or young people as part of this course. There's no cost if you apply through QUT.

Students wishing to accept their offer must submit their blue card application forms:

- no later than 24 May for Semester 2 entry (July entry)

Please submit your blue card application form immediately after receiving your offer. You won't be able to accept your offer and enrol if you don't submit your correctly completed blue card application form on time.

Apply for a blue card

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one and a half years of advanced standing which will entitle you to complete the degree in two and a half years (full-time).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional Recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:
<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Podiatry Board of

Bachelor of Podiatry - Graduate Entry

Australia website

<http://www.podiatryboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Graduate entry students are required to attend pre-course workshops during Orientation Week.

The required full Hepatitis B vaccination course and serology test can take from 6 - 9 months to complete and should be commenced as soon as you accept your course offer.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

- English
- Maths B

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Biology.

International Subject prerequisites

- Chemistry
- Maths B

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Handbook

Year	2019
QUT code	CS48
CRICOS	080484A
Duration (full-time)	4 years
OP	1
Rank	99
Campus	Gardens Point
Domestic fee (indicative)	2019: CSP \$9,400 per year full-time (96 credit points)
International fee (indicative)	2019: \$34,400 per year full-time (96 credit points)
Total credit points	384
Credit points full-time sem.	48
Start months	February
Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	School of Clinical Sciences; +61 7 3138 1938; medicalradiations@qut.edu.au
Discipline Coordinator	AskQUT +61 7 3138 2000 ask@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English
- Maths B
- Physics

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- Physics

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

Accreditation for the course is currently being sought with the Medical Radiation Practice Board of Australia.

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Minimum English requirements

Students must meet the English proficiency requirements.

At the end of the second year of study in CS49, students with a GPA of 6 or over will have the option to apply for CS50 Bachelor of Radiation Therapy (Honours). Entry to CS50 will be competitive, based on GPA. On entry to CS50, students will retain all of the credit successfully completed in CS49 and will complete a further two years of fulltime study which will include an honours research project.

Further information

For further information, contact the School of Biomedical Science on 07 3138 1938 or email biomedical@qut.edu.au

International Course structure

Your Course

Year 1

You will undertake units covering chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course. With QUT's practical approach to teaching, you will not only learn the theory, but gain a wealth of practical experience in state-of-the-art laboratories. You will also gain an introduction to the essential communication skills required for a career in the health and medical professions.

Year 2

You will have the option of choosing a major and two minors from five key biomedical scientific disciplines to align with your own career goals: anatomical sciences, cell and molecular biology, human biochemistry, human physiology and infectious diseases. You will have the opportunity to complement your studies by choosing a university wide set from a discipline outside of biomedical science, such as behavioural science, public health, human rights, entrepreneurship, mathematical sciences, international business or study a language. A minor is also available in Clinical Physiology which includes a 400 hour Clinical Physiology internship in which you will be placed in a hospital with professional clinical physiologists who will provide training in physiological instrumentation and measurement, recording, interpretation and reporting of clinical data. You will also have opportunities to gain real world experience as part of your course in Work Integrated Learning placements in biomedical research institutes and laboratories in the science industry.

Year 3

In the real world, the design and completion of successful research and/or

business projects demand that individuals gather information, solve problems, work effectively as a part of a team and analyse and communicate results in a critical manner. Therefore each major in this course will culminate in a capstone unit which will require you to apply the knowledge and skills developed through your course. Capstone projects include human anatomical dissection, contemporary laboratory based research projects in biochemistry, physiology and cell and molecular biology, and diagnosis, characterisation and development of appropriate responses to an infectious disease outbreak scenario.

Course Design

The Bachelor of Biomedical Science comprises first-year studies in chemistry, physics, anatomy, pathology and cell biology, providing a solid knowledge base for the topics covered later in the course.

Units in the second and third years combine advanced studies with theoretical, practical, and problem-solving skills. Several units in the area of humanities and applied health are an integral part of the course.

The Bachelor of Biomedical Science provides the necessary knowledge and skills to enter a career in biomedical research, with integration of research design and implementation, scientific writing and communication and practical laboratory skills embedded through each year of the course.

Furthermore students will be well prepared to sit GAMSAT which is designed to evaluate mastery and use of concepts in basic science as well as the acquisition of more general skills in problem solving, critical thinking and writing. The Bachelor of Biomedical Science provides a solid grounding in GAMSAT testing areas: reasoning in humanities and social sciences, written communication, reasoning in biological and physical sciences (including chemistry, biology and physics).

Sample Structure

To fulfil the requirements of this course you must do the following:

- complete 8 Biomedical Science core units (Year 1)
- select and complete any 2 units from Biomedical Science List A core option units (Year 2)
- select a Study Area A and complete the 6 units comprising that Study Area (Years 2 & 3)
- select and complete 2 Study Area B to complement your Study Area A (Years 2 and 3). You may choose to do 2 Biomedical Science Study

Area B, or one Biomedical Science Study Area B and a University-wide Unit Set

NOTE:	
Please ensure that the Option units are from areas other than your selected Study Area A or B choices.	
Students will undertake: 8 core units (96 credit points) in Year 1.	
In Years 2 and 3, students will undertake:	
24 credit points (2 units) of Option units	
72 credit points from a Study Area A	
48 credit points from Study Area B	
48 credit points from a second Study Area B or from other areas approved by the Course Coordinator.	
The following university-wide units sets are pre-approved: Entrepreneurship; Integrated Marketing Communication; Studies in Behavioural Science; Interactive and Visual Design; Journalism; Professional Writing, Publishing and Editing; Studies in Nutrition and Physical Activity; Criminology and Policing.	
If you wish to do a university-wide unit set that is not in this list, please contact the School of Biomedical Sciences on 3138 1938 or email biomedical@qut.edu.au .

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry
- English
- Maths B

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Chemistry
- Maths B

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

This course is accredited by the Australian Institute of Medical Scientists, and, as a graduate, you are eligible for graduate membership and will have completed the academic and work placement requirements for admission as a full member.

Depending on your employment, you will be eligible to apply for membership of various professional organisations including the Australasian Association of Clinical Biochemists, Australian Society of Microbiology, Australian Society of Cytology, Human Genetics Society of Australasia, Haematology Society of Australia and New Zealand, Australian and New Zealand Society of Blood Transfusion, and Australian Society of Thrombosis and Haemostasis.

Other course requirements

There are requirements that you will need to meet as a student in this course. You

will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Pathways

As a graduate, you can pursue further studies leading to a career in medical research. Graduates are currently working as researchers in areas such as cancer diagnosis, malaria, virology, stem cells, infectious diseases, immunology, transfusion science, eye disease, reproductive medicine and molecular biology.

Further information

For more information about this course, contact the School of Biomedical Sciences on +61 7 3138 1938 or biomedical@qut.edu.au

International Course structure

Your course

Year 1

The course commences by developing a sound knowledge and understanding of fundamental concepts that underpin medical laboratory science: cellular and molecular biosciences, anatomy, physiology mathematics, statistics, biophysics and chemistry. You will also be introduced to the local, national and global profession of medical laboratory science, and the Australian Healthcare System in the first of your professionally orientated units in the course.

Year 2

In your second year, you will explore more specialised concepts in pathology, biochemistry, microbiology, immunology, cytogenetic and molecular pathology, histopathological techniques, quantitative medical science, and quality assurance systems. In your practical classes, you will learn some of the latest techniques used in the clinical diagnostic pathology industry, giving you the opportunity to develop your skills to professional standards.

Year 3

The third year of the program allows you to further develop and refine your knowledge, understanding and practical skills to a more advanced level, and learn how they are applied in the clinical disciplines of molecular diagnostics,

microbiology, chemical pathology, diagnostic endocrinology, histopathology, cytopathology, haematology and, transfusion and transplantation science.

Year 4

In your first semester, you will undertake a semester-long work integrated learning internship in a recognised laboratory. During that time you will also complete studies in health informatics and learn how this relates to day-to-day laboratory operations. In your final semester, you will complete an elective of your choice designed to complement your learning, e.g. pharmacology, marketing, management or research techniques. You will also prepare professional plans and identify graduate opportunities, as well as further your clinical discipline specific learning in the context of intercultural health and contemporary issues in medical science.

Course progressions are subject to University approval.

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or equivalent) not in nursing with a minimum volume of learning of 1.00 year full-time (or equivalent) completed within the past ten years.

If you have completed your degree more than ten years ago you must provide evidence with your QTAC application of further studies of a recognised graduate certificate (or higher) studies undertaken in the last ten years.

Selection ranks

You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course.

Automatic advanced standing (credit)

If admitted to the graduate entry program you will automatically receive one year of advanced standing which will entitle you to complete the degree in two years (full-time).

International Entry requirements

Academic entry requirements

Prerequisite
A completed recognised bachelor degree (or equivalent) not in nursing completed within the past ten years with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale).

Applicants in possession of a bachelor degree awarded more than ten years ago will be eligible for entry if they have completed additional postgraduate studies at graduate certificate level (or higher) within ten years of the planned date of course commencement; *or*

Completed a recognised overseas nursing qualification at bachelor degree level with a minimum grade point average (GPA) score of 4.00 (on QUT's 7 point scale), that enables the applicant to work as a registered nurse in their home country. Applicants whose qualification/s were awarded more than ten years ago will need to *provide evidence of recent work experience as a registered nurse*, (that is, practice as a registered nurse no more than three years prior to the

planned commencement date of the QUT Bachelor of Nursing).

Working with Children Check: blue card

You'll need to apply for a blue card because you'll be working with children or young people as part of this course. There's no cost if you apply through QUT.

Students wishing to accept their offer must submit their blue card application forms:

- no later than 24 December for Semester 1 (February entry)
- no later than 24 May for Semester 2 entry (July entry)

Please submit your blue card application form immediately after receiving your offer. You won't be able to accept your offer and enrol if you don't submit your correctly completed blue card application form on time.

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: <http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Optometry Board of

Australia website

<http://www.optometryboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Professional Recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the [Australian Psychology Accreditation Council \(APAC\)](#)

Honours

Many graduates wish to pursue careers in professional areas of psychology. To do so you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a [Master of Clinical Psychology](#) or [Master of Psychology \(Educational and Developmental\)](#)

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Maths B

Plus one of Chemistry, Physics or Biology. We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Recommended study: Health Education or Physical Education.

International Subject prerequisites

- Maths B

Plus one of Chemistry, Physics or Biology. Recommended study: Health Education or Physical Education.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the [Australian Psychology Accreditation Council \(APAC\)](#). To pursue a career in a professional area of psychology you must be registered with the Psychology Board of Australia. For this degree this currently involves completing a fifth year of study in psychology (eg [Bachelor of Behavioural Science \(Honours Psychology\)](#) or [Graduate Diploma in Behavioural Science \(Psychology\)](#)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a [Master of Clinical Psychology](#) or [Master of Psychology \(Educational and Developmental\)](#)

The Bachelor of Exercise and Movement Science is accredited by [Exercise and Sports Science Australia \(ESSA\)](#). Graduates are eligible for membership of Exercise and Sports Science Australia (ESSA) as exercise scientists.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Pathways

On completion of the course graduates may apply for admission to a further year of study in either the [Bachelor of Behavioural Science \(Honours Psychology\)](#) or [Graduate Diploma in Behavioural Science \(Psychology\)](#)

Further information

For information about this course, please contact the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or exercise@qut.edu.au OR contact the School of Psychology and Counselling on +61 7 3138 4520 or psychology@qut.edu.au

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Council. Graduates meet the requirements for registration by the Nursing and Midwifery Board of Australia and are also eligible for membership of the Australian College of Nursing.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: <http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Nursing and Midwifery Board of Australia website <http://www.nursingmidwiferyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council. To pursue a career in a professional area of psychology you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology (eg Bachelor of Behavioural

Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Please refer to the Psychology Board of Australia website <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

This course has a number of compulsory clinical practice units. One of these units will require students to undertake a 4 week clinical placement experience scheduled during the November – February summer break prior to the commencement of the final year of studies.

Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Further information

Domestic Course structure Your course

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Human Services. You will undertake the two components of the double degree concurrently.

Creative Industries component

The core of the program centres on Creative Enterprise studios that offer authentic, problem-based activities, coupled with work integrated learning, skills in entrepreneurship and commercial links that engage in creative start-ups. Early in your degree, you choose two introductory units to experience your preferred majors. Using this experience, you then decide upon a creative industries major.

You will complete:

- core units - 72 credit points
- creative industries introductory units - 24 credit points
- a creative industries major - 96 credit points from one of the specified majors including: Creative and Professional Writing; Media and Communication; Drama and Performance; Entertainment; Fashion Communication; Interactive and Visual Design; Music and Sound; and Screen Content Production.

Human Services component

You will complete 108 credit points of core human services units, 48 credit points of professional practice studies and 36 credit points of human services elective studies.

Study overseas

[Study overseas](#) while earning credit towards your QUT creative industries degree with one of our worldwide exchange partners.

Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in a creative or non-creative discipline area, depending on how they match with your QUT course. Saving your electives for exchange will allow you the most flexibility.

International Course structure Your course

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Creative Industries and 192 credit points from the Bachelor of Human Services. You will undertake the two components of the double degree concurrently.

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC).

To pursue a career in a professional area of psychology, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in psychology, e.g. Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as a Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Business component: Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Course Design

Students are required to complete 384 credit points comprised of 192 credit points from the Bachelor of Behavioural Science (Psychology) program and 192

credit points from the Bachelor of Business.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

The Business major can be selected from all majors offered within the BS05 Bachelor of Business. The Bachelor of Business component consists of eight core units*; and an additional eight discipline specific units from within the chosen major, offered at Gardens Point. Students choosing the Management or Marketing majors may undertake units at the Caboolture campus.

* Please note that the Business School Core Unit BSB123 Data Analysis is not required as the Psychology content covers similar topics. MGB223 Entrepreneurship and Innovation replaces this unit.

Bachelor of Business (Honours) Year Option

Students can apply for Bachelor of Business (Honours) (BS63) once they have completed the double degree program. Please click on [BS63](#) for more details.

Important Information for Business Students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#). Other useful information can be found on the [Student Services](#) website.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the QUT Business School +61 7 3138 2050 or email bus@qut.edu.au

Discontinuation of the course

IX52 Bachelor of Behavioural Science (Psychology)/ Bachelor of Laws has been replaced by IX82 from 2015. Continuing students will remain in the IX52. There will be no new admissions to the course from 2015.

Professional Recognition

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Honours

The Bachelor of Laws degree may be awarded with honours to students who have recorded outstanding achievement in the law component of the program.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the Faculty of Law phone +61 7 3138 2707 or email lawandjustice@qut.edu.au

Domestic Course structure

You will study a combination of psychology and law units in the first four years, with law units only in the final three semesters.

In your first year, you will be introduced to foundation psychology along with torts and legal foundations. In your second year, you will learn social and organisational psychology, research design and data analysis, contracts, criminal law, developmental psychology, counselling and criminal responsibility.

Your third year allows some flexibility, with your choice of a psychology unit. Other compulsory topics in year three are equity, property law and trusts.

In fourth year, you can pick three electives to study alongside physiological psychology, constitutional law, evidence, psychopathology and corporate law. Years five and six are law units only, but the course allows you to choose units that interest you. You will also study administrative law, civil procedure and learn about professional responsibility. See the [Bachelor of Laws](#) online course information for more details and elective options.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Chemistry
- English
- Maths B

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: One of Maths C, Physics, Biology, Health Education or Physical Education.

International Subject prerequisites

- Chemistry
- Maths B

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies. Recommended Study: One of Maths C, Physics, Biology, Health Education or Physical Education.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Membership

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Nutrition Society, and associate membership of the Dietitians Association of Australia (DAA).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Pathways to Further Study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have met entry requirements.

Further information

For further information, contact the Creative Industries Faculty ci@qut.edu.au or 07 3138 8114 or the School of Exercise and Nutrition Sciences on +61 7 3138 4831 or email nutrition@qut.edu.au

Domestic Course structure

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Media and Communication and 192 credit points from the Bachelor of Nutrition Science. You will undertake the two components of the double degree concurrently.

Study overseas

Study overseas while gaining credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course. For more information, visit [QUT student exchange](#).

International Course structure

In order to complete this course, you must complete a total of 384 credit points comprising 192 credit points from the Bachelor of Media and Communication and 192 credit points from the Bachelor of Nutrition Science. You will undertake the two components of the double degree concurrently.

Study Overseas

Study overseas while gaining credit towards your QUT degree with one of our worldwide exchange partners. Overseas study can be for one or two semesters (or during the semester break) and the units you take can be in either degree area, depending on how they match with your QUT course. For more information, visit [QUT student exchange](#).

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Graduates are eligible for membership of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Pathways to Further Study

On successful completion of the Bachelor of Media and Communication, you will be eligible to apply for entry into the Bachelor of Media and Communication (Honours), provided you have met entry requirements.

Further information

For further information contact the Creative Industries Faculty ci@qut.edu.au or 07 3138 8114 or the School of Public Health and Social Work 07 3138 4697 or socialwork@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended study: Maths A, B or C

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Location

Psychology units are offered at Kelvin Grove campus and Justice units are offered at Gardens Point campus.

Course structure

In order to complete the Bachelor of Behavioural Science (Psychology) component, you must complete a total of 192 credit points consisting of:

Psychology core units (12 units = 144 credit points)

Psychology elective units (4 units = 48 credit points)

In order to complete the Bachelor of Justice component, you must complete a total of 192 credit points from the following:

Justice core units (8 units = 96 credit points)

Study Area A (8 units = 96 credit points)

Students must complete a total of 384 credit points.

Professional recognition

The Bachelor of Behavioural Science (Psychology) component of the program comprises a 3-year undergraduate psychology sequence accredited by the Australian Psychology Accreditation Council (APAC), completed across 4 years of study. On completion of this double degree, students have the option to apply for a 4th year program in

psychology, in order to gain provisional registration as a psychologist.

At any point during your study, you can become a student member of the Australian Psychological Society. Such membership should not be confused with registration as a psychologist. To become a psychologist, you must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

The Bachelor of Justice is highly regarded by the Australian Federal Police, Queensland Police Service and all law enforcement agencies, with many justice graduates gaining employment in these services.

Pathways to further study

On successful completion of the Bachelor of Behavioural Science (Psychology) (including completion of PYB350), you will be eligible to apply for entry into the Bachelor of Behavioural Science (Honours Psychology) or Graduate Diploma in Behavioural Science (Psychology), provided you have achieved the required GPA.

On successful completion of the Bachelor of Justice, you will be eligible to apply for entry into the Bachelor of Justice (Honours), provided you have achieved the required GPA.

Further information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au OR the School of Justice on +61 7 3138 2707 or email lawandjustice@qut.edu.au

Domestic Course structure

First year comprises foundation units to give you a solid overview of each area. You will study introductory psychology, criminology, policing, interpersonal processes and skills, justice and society, and research methods. You will also develop an understanding of the criminal justice system, and learn about forensic psychology and how it relates to law.

Bachelor of Behavioural Science (Psychology)/Bachelor of Justice

By second year you will begin to pick study areas related to your justice major. You will expand your knowledge in social and organisational psychology, research analysis, social ethics, developmental psychology and counselling.

Third year allows you to tailor your degree to your interests. Of the eight units studied in third year, you can choose six of them from an extensive electives list. Choose from areas such as human sexuality, alcohol and drug studies, forensic psychology, psychology and gender, road safety, industrial and organisational psychology, health psychology and family therapy.

In fourth year combine four compulsory units with the other four units of your choice. Compulsory units include physiological psychology, psychopathology, Indigenous justice, and statistical analysis. You choose three justice electives and one psychology elective to complete your studies.

Sample Structure

This course is being replaced by the IX77 Bachelor of Behavioural Science (Psychology) / Bachelor of Justice from 2016 on and some of the units have changed for the Justice component. Please refer to the Bachelor of Justice Community page or contact lawandjustice@qut.edu.au for further information.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional Recognition

Completion of the Bachelor of Human Services entitles graduates to apply for membership of the Australian Community Workers Association.

Course Requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further Information

For further information contact the School of Public Health and Social Work 07 3138 4697 or email socialwork@qut.edu.au; or the School of Justice 07 3138 2707 or lawandjustice@qut.edu.au

Domestic Course structure

Both areas will be studied in each semester. In the justice component, you will study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations. In human services, you may choose a focus on disability, youth, or child and family services.

International Course structure

Both areas will be studied in each semester. In the justice component, you will study areas such as criminology, policing, ethics, crime prevention, justice policy and investigations. In human services, you may choose a focus on disability, youth, or child and family services.

Sample Structure

This course structure is subject to approval - the remainder of the course progression will be updated following approval.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful

completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336

Total credit points for core units: 240

Total credit points for elective units: 96

Honours Level Units

96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):

LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules.

Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Further Information

Contact the [School of Psychology and Counselling](#), or the Faculty of Law on +61 7 3138 2707 or lawandjustice@qut.edu.au, for more information about this course.

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology
- Chemistry
- English
- Maths B

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Biology
- Chemistry
- Maths B

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- One Biomedical Science Study Area A units and two Biomedical Science elective units OR
- Two Biomedical Science Study Area B

Under the Law component, students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law

electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB (Hons) is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the Faculty of Law lawandjustice@qut.edu.au or 07 3138 2707.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to

undertake:

- Choice of ONE Biomedical Science Study Area A units plus two units from a Study Area B OR
- Choice of TWO Biomedical Science Study Areas B

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Int. Start Months	February
Deferment	You can defer your offer and postpone the start of your course for one year.
Course Coordinator	Enquiries to biomedical@qut.edu.au or 07 3138 1938; Director of Studies, QUT Business School; email: askqut@qut.edu.au ; ph: +61 7 3138 2000
Discipline Coordinator	AskQUT +61 7 3138 2000 ask@qut.edu.au

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology
- Chemistry
- English
- Maths B

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Biology
- Chemistry
- Maths B

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

Business component: Students may be eligible for membership to a number of professional bodies depending on choice of major and unit selection. Details on

professional recognition can be found under the individual majors of the Bachelor of Business (BS05).

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Important information for business students

QUT Business School rules and procedures are outlined in the [Business Undergraduate Guidelines booklet](#).

Other useful information can be found on the [Student Services](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the QUT Business School bus@qut.edu.au or 07 3138 2050.

Minimum English requirements

Students must meet the English proficiency requirements.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Professional recognition

The course meets the requirements for accreditation by the Australian and New Zealand Podiatry Accreditation Council. Graduates meet the requirements for registration with the Podiatry Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the [AHPRA website](#)

Please refer to the [Podiatry Board of Australia website](#) for additional information on the Board's Registration Standards.

Graduates have been eligible for registration in the United Kingdom, New Zealand and some European countries and may also become members of the Australian Podiatry Association (APA) and Sports Medicine Australia (SMA).

Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the [Australian Health Practitioner Regulation Agency](#)

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Sample Structure

There is no direct entry into CS46 Bachelor of Podiatry (Honours). Students complete Year 1 and Year 2 of CS44 Bachelor of Podiatry and apply for entry into CS46.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English
- Maths B
- Physics

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Maths B
- Physics

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

Accreditation for the course is currently being sought with the Medical Radiation Practice Board of Australia.

English Language Skills (Applicable to health practitioners applying for registration)

All applicants must be able to demonstrate English language skills at IELTS academic level 7 or equivalent. Test results from examinations will generally need to be obtained within two years prior to applying for registration.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Minimum English requirements

Students must meet the English proficiency requirements.

At the end of the second year of study in CS49, students with a GPA of 6 or over will have the option to apply for CS50 Bachelor of Radiation Therapy (Honours). Entry to CS50 will be competitive, based on GPA. On entry to CS50, students will retain all of the credit successfully completed in CS49 and will complete a further two years of fulltime study which will include an honours research project.

Domestic Entry requirements

Academic entry requirements

- A completed recognised bachelor degree in a discipline within science, information technology, engineering, mathematics, agriculture science, veterinary science or health and obtained a minimum grade point average (GPA) of 5.0 on QUT's 7-point scale; *and*
- An application must be made within 18 months of completing the bachelor degree; *and*
- Admission requires a suitable project and supervisor availability. You must provide your proposed research topic and supervisor name with your application form.

International Entry requirements

- A completed recognised bachelor degree in a discipline within science, information technology, engineering, maths, agriculture or veterinary science or health and obtained a minimum grade point average (GPA) of 5.0 on QUT's 7-point scale; *and*
- An application must be made within 18 months of completing the bachelor degree.

Note:

Admission requires a suitable project and supervisor availability. You must provide your proposed research topic and supervisor name with your application form.

Minimum English requirements

Students must meet the English proficiency requirements.

Pathways to further study

An honours qualification enhances your professional employability in your chosen discipline, and opens a direct pathway to postgraduate studies, qualifying you for entry into Doctor of Philosophy, Doctor or

Health Science and Master of Applied Science (Research) courses.

Professional recognition

Relevant scientific professional bodies include Australasian Graduates may seek membership of various organisations as follows:

Association of Clinical Biochemists, AusBiotech Ltd, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, and Australian Society for Microbiology. Eligibility for membership is based on the combination of units undertaken in the Honours degree and the Bachelor course that underpins it.

Further information

For more information about this course, please phone on +61 7 3138 4822 or email hlthhonours@qut.edu.au

Domestic Course structure

The core of the honours program is a 48 credit point project that will provide you with the opportunity to learn about research by completing a project with an experienced researcher who acts as both supervisor and mentor. You will learn about the types of processes, creativity and analytical thinking that lead to scientific and technological advances and how to communicate such findings in a rigorous, systematic manner.

The course consists of two 12 credit point units covering advanced discipline readings and readings in biomedical science; two 12 credit point units covering research strategies; and a 48 credit point research project.

Study areas

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. [See our current student topics.](#)

Key areas of research strength include:

- cancer
- chronic disease, supportive and palliative care
- environmental health
- exercise, nutrition and metabolism
- health services
- infectious diseases
- injury prevention
- mental health and wellbeing
- social determinants of health
- vision improvement
- wound and tissue restoration.

- Infectious Diseases
- Injury Prevention
- Mental Health and Wellbeing
- Social Determinants of Health
- Vision Improvement
- Wound and Tissue Restoration.

Sample Structure

Note: This standard study plan applies to all HL53 students. Three award titles are available:

- Bachelor of Biomedical Science (Honours)
- Bachelor of Biomedical Science (Honours) (Nutrition Science) – for HL53 students who undertake their research project in the field of Nutrition Science
- Bachelor of Biomedical Science (Honours) (Sport and Exercise Science) – for HL53 students who undertake their research project in the field of Sport and Exercise Science

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- English

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA). Recommended Study: Maths A, B or C.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core program of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology) or the Graduate Diploma in Behavioural Science (Psychology), in order to gain provisional registration as a psychologist.

Under the Law component students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful

completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336

Total credit points for core units: 240

Total credit points for elective units: 96

Honours Level Units

96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):

LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional Recognition

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules.

Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories.

The Bachelor of Behavioural Science (Psychology) component of the degree is accredited by the Australian Psychology Accreditation Council (APAC). The Bachelor of Laws degree satisfies the academic requirements for admission to practice as a Solicitor or Barrister in all Australian States or Territories.

Many graduates wish to pursue careers in professional areas of psychology. To do so students must be registered with the Psychology Board of Australia. This currently involves completing a fourth year of study in Psychology (eg Bachelor of Psychology (Honours) or Graduate Diploma in Behavioural Science (Psychology)), followed by either two years of supervised work experience or the completion of an appropriate higher degree such as Master of Clinical Psychology or Master of Psychology (Educational and Developmental).

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more at [deferment](#)

Further Information

Contact the [School of Psychology and Counselling](#), or the Faculty of Law on +61 7 3138 2707 or lawandjustice@qut.edu.au, for more information about this course.

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

The course structure for the Bachelor of Behavioural Science component of the double degree comprises the main APAC-accredited psychology core programme of 12 units as well as 4 psychology electives. The psychology core allows the student to complete a 3-year APAC-accredited psychology sequence across 4 years of study. On completion of the double degree program, a student then has the option to apply for entry to a Bachelor of Behavioural Science (Honours Psychology).

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

International Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Behavioural Science (Psychology) program and 336 credit points for the Bachelor of Laws program. You will study psychology and law units in your first four years and for the remainder of this course you will concentrate on law studies.

Domestic Assumed knowledge

Before you start this course we assume you have sound knowledge in these areas

- Biology
- Chemistry
- English
- Maths B

We assume that you have knowledge equivalent to four semesters at high school level (Years 11 and 12) with sound achievement (4, SA).

International Subject prerequisites

- Biology
- Chemistry
- Maths B

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Course structure information

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to undertake:

- One Biomedical Science Study Area A units and two Biomedical Science elective units OR
- Two Biomedical Science Study Area B

Under the Law component, students will complete 336 credit points of core units and a mixture of Introductory, General and Advanced Electives. Students may select up to 48 credit points of non-law

electives or 48 credit points of a University-wide minor in place of four of the General Electives. Successful completion of a minor will be recognised on the Academic Record and / or the Australian Higher Education Graduation Statement.

Total Law credit points: 336
Total credit points for core units: 240
Total credit points for elective units: 96

Honours Level Units
96 credit points of Honours units listed below will be used to determine the Honours Levels of the LLB (Hons):
LLH201 Legal Research,
LLH206 Administrative Law,
LLH302 Ethics and the Legal Profession,
LLH305 Corporate Law,
LLH401 Legal Research Capstone (24 cps) and
two Advanced Electives in law.

Professional recognition

Depending on the units selected in final year, graduates will be eligible for membership into one or more of the following organisations: Australian Society for Medical Research, Australian and New Zealand Society for Cell and Developmental Biology, Australian Society for Biochemistry and Molecular Biology, Australian Association of Clinical Biochemists, Australian Society for Microbiology, Australian Neuroscience Society, The Endocrine Society of Australia, Society of Reproductive Biology, Australian and New Zealand Association of Clinical Anatomists, Australian and New Zealand Bone and Mineral Society, and Australian and New Zealand Forensic Science Society.

The QUT LLB (Hons) is an approved degree for the purposes of the Legal Practitioners Admission Rules. Accordingly, it enables graduates to satisfy the academic requirements for admission to practise as a solicitor and/or barrister in all Australian states and territories. The QUT LLB (Hons) is also recognised for admission purposes in West and East Malaysia, Fiji and Papua New Guinea.

Admission to practice

If, at the end of your degree, you wish to become a legal practitioner, you will need to complete further practical legal training (PLT). QUT also offers PLT in the form of the Graduate Diploma in Legal Practice.

Career Outcomes

In developing the LLB (Hons) the Faculty recognises that graduates are increasingly seeking a broad range of careers including, but not limited to, legal practice. The defining nature of the QUT LLB (Hons) is its real-world applied nature which will equip you with advanced knowledge and research and other skills and that meet the needs of not only the legal profession, but also government, community organisations, business and industry.

The LLB (Hons) provides students with an opportunity to advance their knowledge of law in specialised areas through the elective units offered as part of the course. The elective units allow you to study areas of the law that match your career aspirations.

Career opportunities include working in general legal practice, specialist legal practice, government departments and employment in private enterprise.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For further information, contact the School of Biomedical Science biomedical@qut.edu.au or 07 3138 1938 or the Faculty of Law lawandjustice@qut.edu.au or 07 3138 2707.

Deferment

Domestic students can defer their offer in this course for one year. In exceptional circumstances up to 12 months of additional deferment may be granted.

Find out more on [deferment](#).

Domestic Course structure

Students are required to complete 528 credit points, comprised of 192 credit points for the Bachelor of Biomedical Science program and 336 credit points for the Bachelor of Laws program. You will study science and law units in your first four years and for the remainder of this course you will concentrate on law studies.

In the Biomedical Science component of this degree, you may choose to

undertake:

- Choice of ONE Biomedical Science Study Area A units plus two units from a Study Area B OR
- Choice of TWO Biomedical Science Study Areas B

Under the Law component you will complete 336 credit points of core units and a mixture of law electives made up of

- 19 Core units (240 credit points)
- 1 introductory law elective* (12 credit points)
- 5 general law electives** (60 credit points)
- 2 advanced law electives (24 credit points)

*Students commencing from 2019 may select a general law elective in place of the introductory law elective

**Students commencing from 2019 have the option to complete the Law, Technology and Innovation minor or 4 non-law electives (48 credit points) or a university wide minor in place of 4 general law electives (48 credit points). Successful completion of a minor will be recognised on the academic record and/or the Australian Higher Education Graduation Statement.

Law, technology and innovation minor units

- Law and Data Analysis (LLB250)
- Law and Design Thinking (LLB251)
- Regulating Artificial Intelligence and Robotics (LLB341)
- Regulating the Internet (LLB345)

Honours-level units

96 credit points of the following honours units will be used to determine the honours levels of the LLB (Hons):

- Legal Research (LLH201)
- Administrative Law (LLH206)
- Ethics and the Legal Profession (LLH302)
- Corporate Law (LLH305)
- Legal Research Capstone (LLH401) (24 credit points)
- two 12-credit point Advanced Law Electives

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree in psychology completed within the past ten years with a minimum grade point average (GPA) of 5.0 (on QUT's 7-point scale).

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as an entry point into an honours program; e.g. Bachelor of Behavioural Science (Psychology) at QUT.

Applicants with overseas qualifications must provide certification from the [Australian Psychological Society](#) stating their degree is equivalent to APAC-approved, three-year training in psychology. Please note APS advises the average processing time is 8 weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirements

- A grade of at least 4 (on a 7-point scale) for each of the APAC-accredited second and third year psychology units listed below.
- A grade point average of at least 5.3 across all attempts of the listed APAC accredited second- and third-year psychology units listed below.
- Successful completion of an APAC-accredited advanced statistical analysis unit at third-year level.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment
- PYB350 Advanced statistical analysis.

Similar APAC-accredited subjects are required for studies completed at another institution.

Selection process

Entry to this course is competitive as places are limited. All applications will be considered in two groups of:

- QUT's Bachelor of Behavioural Science (Psychology) single and double degree graduates; and

- All other applicants.

Eligible applicants are selected in order of merit based on their APAC accredited second and third year psychology units GPA.

Early closing date

Applications close on 30 September. Applications after this date will not be accepted.

International Entry requirements

A completed recognised bachelor degree in psychology completed within the past ten years with a minimum grade point average (GPA) of 5.0 (on QUT's 7-point scale).

The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as an entry point into an honours program; e.g. Bachelor of Behavioural Science (Psychology) at QUT.

Applicants with overseas qualifications must provide certification from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to the APAC-approved, three-year training in psychology. The APS advises that the average processing time is 8 weeks, therefore applicants with overseas qualifications are strongly encouraged to seek certification by no later than July.

Additional entry information

- A grade of at least 4.0 (on QUT's 7-point scale) for each of the APAC-accredited second and third year psychology units listed below.
- A grade point average of at least 5.3 across all attempts of the listed APAC accredited second- and third-year psychology units listed below.
- Successful completion of an APAC-accredited *advanced statistical analysis* unit at third-year level.

The required APAC-accredited second and third year psychology units at QUT are:

- PYB202 Social and organisational psychology
- PYB203 Developmental psychology
- PYB204 Cognition and perception
- PYB210 Research design and data analysis
- PYB304 Physiological psychology
- PYB306 Psychopathology
- PYB309 Individual differences and assessment

Bachelor of Behavioural Science (Honours Psychology)

analysis

Similar APAC-accredited subjects are required for studies completed at another institution.

Selection process

Entry to this course is competitive as places are limited. All applications will be considered in two groups of QUT's Bachelor of Behavioural Science (Psychology) single and double degree graduates; and all other applicants.

Eligible applicants are selected in order of merit based on their APAC accredited second and third year psychology units GPA

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year.

Applicants will be notified of their application outcomes in mid-December.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

Successful completion of the Bachelor of Behavioral Science (Honours Psychology) meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:

<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Psychology Board of Australia website: <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

International Student Entry

International students may enrol only in full-time studies.

Please refer to the Psychology Board of Australia website <http://www.psychologyboard.gov.au/Registration-Standards.aspx> for information on the Board's English Language Skills Registration Standard.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The honours program comprises eight units, which can be completed in full-time or part-time study mode.

Core units include PYH401 Advanced Research Methods, PYH402 Counselling Psychology and PYH407 Research and Professional Development Seminar. There is one elective unit. Students can be chose from Cognitive and Neuropsychology or Social and Developmental Psychology as their elective. Core units require 3 contact hours per week, and electives are offered in intensive formats.

This course also includes a research component, which entails an individual thesis. PYH400-1to4 Thesis is undertaken in modules throughout the program. Initially students complete a research plan, which sets out the rational and methodology of the project. This is followed by data collection, analysis and writing-up the research thesis. Contact hours for the research component are as required by the project and supervisor.

International Course structure

For more information about this course, please call the School of Clinical Sciences on +61 7 3138 3368 or email podiatry@qut.edu.au

Domestic Course structure

Offered on a part-time basis over two semesters, there will be on-campus intensive sessions for the discussion of key content, peer review and interaction, practical sessions, and assessment. These intensives will be supplemented by sophisticated online resources using case scenarios to simulate key dilemmas and challenges in clinical practice. A revision of the fundamental biomedical sciences related to pharmacology and pharmacotherapeutics is also incorporated at the start of the program.

The case studies and other learning activities highlight the National Prescribing Service competencies required to prescribe medicines and enable self-reflection and assessment of podiatric therapeutic practice skills for continuing quality improvement.

In the final semester, you will acquire the clinical decision-making practical skills required for prescribing scheduled medicines, through on-campus clinic sessions where you will: discuss medical and medication histories with experienced clinicians; participate in supervised external placements, online case simulations, workshops and assessment.

Throughout the course you will develop an understanding of the elements of safe

prescribing and the core information sources and guidelines for this scope of practice, so that in your podiatric practice you will be able to remain abreast of developments in the field of medication and pharmacological issues.

Domestic Course structure

The Graduate Certificate in Chronic Health Conditions is offered with three study areas: nursing, allied health and public health and will appeal to health professionals working in a range of diverse settings.

All students will undertake the core unit Chronic Conditions Prevention and Management, providing the foundation for the course.

Students completing the nursing study area will focus their studies in advanced health assessment, and chronic care nursing and practice. Students undertaking the allied health or public health study areas will be able to select from a range of electives suited to their professional expertise, which may encompass studies in nutrition and dietetics, health promotion, promoting healthy ageing, epidemiology and research designs.

International Course structure

The Graduate Certificate in Chronic Health Conditions is offered with three study areas: Nursing, Allied Health and Public Health and will appeal to health professionals working in a range of diverse settings.

All students will undertake the core unit Chronic Conditions Prevention and Management, providing the foundation for the course.

Students undertaking the Nursing study area will complete studies in advanced health assessment, chronic care nursing and practice, whilst students undertaking the Allied Health or Public Health study areas will be able to select from a range of electives suited to their professional expertise, which may encompass studies in nutrition and dietetics, health promotion, promoting healthy ageing, epidemiology and research designs.

International applicants

Please note: the Nursing study area in this course is only available to international students on a non-student

visa that includes study rights in Australia. Applicants will need to be registered or authorised to practise in their country of origin or residence OR have current registration with the NMBA. Please refer to the information for Australian and New Zealand applicants for details.

Course Structure

Students are required to complete four units (totaling 48 credit points) from one study area.

Study areas

- Emergency and disaster management (part-time only available)

- Environmental health
- Health promotion (part-time only available)
- Health services management (part-time only available in 2015)
- Occupational health and safety
- Quality and patient safety (part-time only available)
- Risk management

International students starting in February may specialise in:

- Environmental Health
- Health Services Management
- Occupational Health and Safety
- Risk Management

International students starting in July may specialise in:

- Environmental Health
- Occupational Health and Safety

International Student Entry

International students may enrol only in full-time studies and may study only onshore.

Further Information

For information about this course, please contact the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students in the Graduate Certificate in Health Science complete four units from one study area. To complete a major, students must complete at least four units from the same study area within the Faculty of Health. Students can graduate with one specified major only.

Study areas

Study areas are offered in the following:

- Emergency and Disaster Management
- Environmental Health*
- Health Policy and Planning
- Health Promotion
- Health Services Management
- Occupational Health and Safety*
- Quality and Patient Safety

* Students wishing to complete a graduate diploma qualification in Environmental Health or Occupational Health and Safety should apply for entry into the [Graduate Diploma in Environmental Health](#) or [Graduate Diploma in Occupational Health and Safety](#).

Sample Structure

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) completed within the last ten years in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your degree was completed more than ten years ago, you must provide evidence of graduate work experience and/or further studies since course completion with your application for it to be considered.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) with a minimum Grade Point Average (GPA) score of 4.00 on QUT's 7 point scale completed within the last ten years in any of the following areas or relevant disciplines:

- biology
- biochemistry
- biotechnology
- biomedical sciences
- cell biology
- dentistry
- dietetics
- forensic science
- genetics
- medicine
- nursing
- pharmacy
- veterinary science

If your degree was completed more than ten years ago, you must provide evidence of graduate work experience; and; or further studies since course completion with your application for it to be considered.

Minimum English requirements

Students must meet the English proficiency requirements.

Domestic Entry requirements

Academic entry requirements

Registration as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

Study area requirements

In some study areas, applicants will need to comply with certain clinical requirements.

You will be asked to confirm that you have specific professional experience prior to enrolling in units that require workplace-based clinical practice. You will also need to maintain access to the relevant practice setting for the duration of the course. If you do not confirm your professional experience or maintain access to a relevant practice setting, you will not be able to complete the clinical assessment components required to complete units in the study area.

Please refer to study area information in the 'Units' tab for specific details.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0

Additional course requirements

Acute Care Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Cross-specialisation - Gastroenterology

The specialist gastroenterology units are currently only available to nurses currently working for Queensland Health.

Pathways to future study

The Graduate Certificate in Nursing fully articulates with the Master of Nursing.

International students

The Graduate Certificate in Nursing is offered part-time only in internal or external mode and is not available to international students.

Further information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

The Graduate Certificate allows students to complete four core units from their selected area of nursing practice. The following study areas are offered:

- acute care nursing
- cancer nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- chronic health care nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialities or electives.

Acute Care Nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an

emergency setting

- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Chronic health care nursing

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Health Professional Education

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice.

This option has no additional professional experience requirements.

Gastroenterology nursing

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

NO major option

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Domestic Entry requirements

Academic entry requirements

- A completed recognised bachelor degree (or equivalent) in medical radiation or a relevant allied health field (e.g. nursing, podiatry or physiotherapy); *and*
- Written proof of access to suitable clinical experience in medical ultrasound for the duration of the course.*

*Students will need to maintain access to suitable clinical experience for the duration of the course. In accordance with the Australasian Sonographer Accreditation Registry (ASAR) Program Accreditation Guidelines, it is recommended that students be engaged in medical ultrasound practice for a minimum of three days/week over a two year period, full-time equivalent, in an Australian or New Zealand clinical setting.

In order to provide evidence of access to clinical experience, applicants must provide a letter from their clinical supervisor stating the following:

- that the student is rostered to train or work in medical ultrasound for a minimum of three days per week and it is expected that this will continue for the duration of the course;
- the name and address of the practice where the applicant works; *and*
- the title and qualifications of the clinical supervisor (if a sonographer, the supervisor must also state their medical ultrasound qualification).

Minimum English requirements

Students must meet the English proficiency requirements.

Academic entry requirements

A completed recognised bachelor degree (or equivalent) in a relevant science or allied health field (e.g. medical imaging science, biomedical science or nursing); *and*

A minimum of three months full-time equivalent prior supervised, postgraduate hands-on clinical experience in cardiac ultrasound; *and* written proof of access to suitable clinical experience*.

*You'll need to maintain access to suitable clinical experience for the duration of the course. In accordance with the Australasian Sonographer Accreditation Registry (ASAR) Program Accreditation Guidelines, it is recommended that students be engaged in cardiac ultrasound practice for a minimum of three days/week over a two year period, full-time equivalent, in an Australian or New Zealand clinical setting.

In order to provide evidence of prior clinical experience and access to clinical experience, you must submit a completed '[Clinical Supervisor form](#)' with your application for admission.

Closing date

Closing date is 14 December. Applications received after this date may not be processed until the next available intake.

Minimum English requirements

Students must meet the English proficiency requirements.

Professional Recognition

This course is accredited with the [Australasian Sonographer Accreditation Registry \(ASAR\)](#)

Further Information

For more information about this course, please contact the School of Clinical Sciences on +61 7 3138 1938 or medicalradiations@qut.edu.au

Domestic Course structure

The Graduate Diploma in Cardiac Ultrasound takes two years of part-time study to complete. All students are required to attend an intensive one-week block on campus at the beginning of each semester.

The structure of this course includes:

- formal classroom components and clinical skills development sessions conducted during the intensive on-campus blocks
- comprehensive online lectures and self-assessment tutorials.

Applicants will need to maintain access to suitable clinical experience for the duration of the course.

Study areas

Specialised study areas are available in the areas of:

- Emergency and Disaster Management
- Epidemiology and Research Methods*
- Health Promotion
- Health Services Management
- Health, Safety and Environment

There is also the option of not completing a major and choosing units from more than one study area.

* Some units are available only in internal mode.

Course Articulation

This course fully articulates into the Master of Public Health.

Students admitted to the Graduate Diploma in Public Health may be eligible to exit early with a Graduate Certificate in Health Science.

International Student Entry

International students may only enrol in full-time studies. PU60 international students may not enrol in the Emergency and Disaster Management Major, as it is available part-time only.

NOTE: PU63 students intending to articulate to PU84 Master of Health Management and undertake a dissertation are advised to complete a research methods unit as one of their electives in PU63

Choose from the following units:

Code	Title
HLN405	Qualitative Research
HLN701	Independent Study
HLN706	Health Statistics 2
HLN707	Research Methods in Health
HLN710	Epidemiology
LWN149	Conception, Birth and the Law
LWN150	Death, Decisions and the Law
LWN163	Capacity, Guardianship and Administration
LWN166	Consent To Treatment and Clinical Negligence
LWN194	Select Issues in Medical Law and Ethics
LWN195	Elder Law
LWN305	Australian Applied Law
PUN016	Risk Assessment
PUN017	Health Planning and Evaluation
PUN018	Cost-effectiveness Analysis for Healthcare
PUN019	Implementation Science - Theory and Application in Health
PUN103	Advanced Epidemiology
PUN105	Health Statistics 1
PUN212	Health Information Management Perspectives
PUN213	Quality Management in Health
PUN214	Systems of Quality and Safety in Health
PUN219	Leadership of Quality and Safety in Health
PUN301	Occupational Health and

Graduate Diploma in Health Management

	Safety Law and Policy
PUN363	Environmental Health Law
PUN451	Disaster Management
PUN452	Disaster Planning and Preparedness
PUN453	Disaster Response and Recovery
PUN454	Leadership in Disaster Management
PUN620	Concepts of Environmental Health
PUN688	Health Policy in a Global Context

Discipline Coordinator	3138 5856 publichealth@qut.edu.au

Domestic Entry requirements**Academic entry requirements**

- A completed recognised bachelor degree (or higher award) in any discipline; *or*
- A completed recognised diploma in occupational health and safety with at least three years full-time equivalent work experience in an occupational health and safety role

International Entry requirements**Academic entry requirements**

A completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in any discipline.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Other course requirements

The course is offered internally and externally and all the study material and lecture recordings are made available to both internal and external students. In some units on-campus workshops are held for both internal and external students. Attendance at these workshops is not compulsory, although it is encouraged. Students, particularly external students, will need a reliable internet connection and up-to-date hardware (including a multimedia headset with microphone) and up-to-date software. Some units include pod-casts and on-line discussion forums.

Course articulation

This course fully articulates into the Master of Health, Safety and Environment.

Professional recognition

This course is accredited with the Australian OHS Education Accreditation Board.

International student entry

International students may only enrol in full-time studies on-shore, but may enrol full-time or part-time off-shore.

Further information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email publichealth@qut.edu.au

Domestic Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available. During your studies you will examine all facets of occupational health and safety practice. You will also develop the skills to assess the relevant literature so that you can base your advice and decisions on sound evidence.

As a student you will:

- Discuss and analyse risk assessment methods including risk analysis techniques such as HAZOP, FMEA, hazard indices, fault trees, event trees, reliability analysis, statistical analysis and probability.
- Explore the impact of legislation and industrial relations on the management of OHS, including the regulation of physical, biological, and chemical hazards.
- Learn about the nature of materials in regards to failure, fire, and explosions and how to configure appropriate safety systems including storage, handling and transport of hazardous materials.
- Analyse the theory and practice of OHS management and how the structure of an organisation, its environment, and potential loss exposures contribute to risk management.
- Understand the role of ergonomics in optimising OHS and productivity, and develop skills in analysing the relationships between the worker, the work space, and the environment.
- Explore health hazards in the workplace which can result in disease and disorders, including occupational skin conditions, respiratory diseases, mental disorders, cancer, musculoskeletal disorders and the needs of special groups.
- Learn about toxicology and the recognition, evaluation and control of chemical and physical hazards and how to provide professional judgement in investigating,

analysing, and evaluating workplace hazards.

International Course structure

Students complete eight core units. The course is available full-time and part-time. Internal and external modes are available. During your studies you will examine all facets of occupational health and safety practice. You will also develop the skills to assess the relevant literature so that you can base your advice and decisions on sound evidence.

PUP250	Toxicology and Occupational Hygiene

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in nursing.

Additional entry requirements

You must be registered as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

International Entry requirements

Academic entry requirements

You need either:

- a completed recognised bachelor degree (or higher award) with a minimum grade point average (GPA) of 4 (on QUT's 7 point scale) in nursing; or
- a completed recognised associate degree in nursing and one of year work experience as a registered nurse (or equivalent).

The Master of Advanced Practice Nursing does not lead to registration as a nurse in Australia. International students seeking registration in Australia should contact the [Australian Health Practitioner Regulation Agency](#) for further advice or consider our [Bachelor of Nursing](#) program.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Domestic Course structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or no specialisation. You will have the option to study either the Project Stream or the Dissertation Stream. The Project Stream is recommended for nurses wishing to pursue a career as Nurse Unit Managers, Clinical Nurse Consultants, Directors of Nursing or Clinical Nurse Educators. The Dissertation Stream is recommended for

nurses wishing to pursue a career as Nurse Researchers, Nurse Academics or progress onto a PhD.

Additional electives are available to students undertaking the Project Stream.

Study areas

The following study areas are offered to domestic students:

- acute care nursing
- cancer nursing
- chronic health care nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialisations or electives.

Acute care nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health care nursing

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice

opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an

acute paediatric setting.

Health professional education

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice. Students implement and evaluate learning and teaching activities in diverse settings and critically reflect on the effectiveness of a learning program including assessment review.

This option has no additional professional experience requirements.

Gastroenterology nursing

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

No major option

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

International Course structure

International students can only undertake no major or a major in:

- chronic health care nursing
- health professional education.

No major provides the option of choosing units from more than one study area.

Sample Structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or no major. All students undertake research studies by choosing a project or thesis pathway. Additional electives are

available to students undertaking the project pathway.

Study areas

The following study areas are offered to domestic students:

- acute care nursing
- cancer nursing
- chronic health care nursing
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing
- health professional education
- gastroenterology nursing

Alternatively, students may choose to select units from across the specialities or electives.

Acute care nursing - Domestic Students Only

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by acute patients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing - Domestic Students Only

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health care nursing - Domestic or International Students

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing - Domestic Students Only

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting; and
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing - Domestic Students Only

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine; and
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing - Domestic Students Only

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Health Professional Education - Domestic or International Students

Students critically examine contemporary educational theories and explore the principles of learning and teaching underpinning best practice.

This option has no additional professional experience requirements.

Gastroenterology nursing - Domestic Students Only

Students develop advanced knowledge and skills in the practice of gastroenterology nursing. Students plan appropriate strategies and intervention for patient care and develop an understanding of research applied to gastroenterology nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) and have a minimum of three months FTE in a setting where care is delivered to gastroenterology patients. Examples include gastroenterology wards or day clinics, endoscopy units/clinic, medical wards caring for gastroenterology patients.

No major option - Domestic or International Students

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in nursing; *and*

Registration as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree (or higher award) in nursing; *or*

A completed recognised associate degree in nursing and one year work experience as a registered nurse.

The Master of Nursing does not lead to registration as a nurse in Australia. International students seeking registration in Australia should contact the Australian Health Practitioner Regulation Agency for further advice at <http://www.ahpra.gov.au/>

or consider QUT's NS42 [Bachelor of Nursing](#) program.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Study Areas

Study areas are available in the following areas:

- Acute Care
- Cancer Nursing
- Emergency Nursing
- Intensive Care Nursing
- Paediatric, Child and Youth Health Nursing
- Cross-specialisation

Additional course requirements

Acute Care Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical,

rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer Nursing

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Emergency Nursing

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive Care Nursing

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, Child and Youth Health Nursing

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation

Students complete two core units and choose two additional units from a list of electives covering more than one study area.

This option has no additional professional experience requirements.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

This course offers a variety of career pathways for nurses working in diverse settings and provides opportunities for in-

depth study for advanced competence in selected areas of nursing practice.

Students in the masters program complete a specialised study area or a cross-specialisation of units. All students undertake research studies by choosing a project or thesis pathway. Additional electives are available to students undertaking the project pathway.

Study areas

The following study areas are offered to domestic students:

- acute care nursing
- cancer nursing
- chronic health conditions
- emergency nursing
- intensive care nursing
- paediatric, child and youth health nursing.

Alternatively, students may undertake a cross-specialisation of studies.

Acute care nursing

Students complete studies in advanced health assessment and nursing practice, issues and trends in acute care nursing, and critically analyse the advanced concepts that underpin this specialist area. Students will initiate plans of care to address common needs/problems experienced by clients.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where acutely ill patients are encountered. Examples include, but are not limited to, acute medical-surgical, rehabilitation, orthopaedic, community and residential, general practice, renal and chronic care settings.

Cancer nursing

Students develop competency in the practice of cancer nursing, examine major issues and trends in cancer nursing scholarship and practice, plan appropriate strategies/intervention for client care and develop an understanding of research applied to cancer nursing practice.

You must be currently working at least 0.5 FTE (full-time equivalent) in a setting where care is delivered to cancer patients. Examples include medical and radiation oncology, haematology, medical-surgical, community and aged care residential settings.

Chronic health conditions

This course draws on expertise from a number of health disciplines and meets the needs of nurses who want to gain specific skills for more advanced practice opportunities, especially those working with patients who may have a range of

chronic health conditions.

It also focuses on prevention and promotion of health to prevent or delay the onset of chronic health conditions.

Emergency nursing

Students explore the key issues, trends, and challenges in emergency nursing scholarship and develop an understanding of research applied to emergency nursing practice. Students develop skills in patient assessment, planning, and implementation of health care in the emergency area.

You must:

- be currently working at least 0.5 FTE (full-time equivalent) in an emergency setting; and
- have a minimum of three months FTE (full-time equivalent) experience in an emergency setting.

Intensive care nursing

Students explore the theoretical, conceptual and practical knowledge required to provide effective nursing care for diverse and complex critically ill patients in the intensive care unit, an increasingly complex technological environment.

You must:

- be currently working at least 0.5 FTE in a level II (two) or III (three) intensive care unit, as defined by the College of Intensive Care Medicine of Australia and New Zealand (CICM), Minimum Standards for Intensive Care Units; or as accredited by the CICM for training in intensive care medicine; and
- have a minimum of three months FTE (full-time equivalent) experience in an intensive care unit as defined above.

Paediatric, child and youth health nursing

This program is designed for nurses working in acute or community settings to develop competency in the practice of paediatric nursing or child and youth health nursing. Students will examine major issues and trends in nursing scholarship and practice, and develop an understanding of research in this area.

This study area requires you to undertake clinical practice in a paediatric, child and youth health nursing setting. Examples include acute paediatric or community health settings. If you wish to focus on issues relating to acute child and family health, you must be currently working at least 0.5 FTE (full-time equivalent) in an acute paediatric setting.

Cross-specialisation - general

Students complete core units and choose additional units from a list of electives covering more than one study area (two electives for the thesis strand and four electives for the project strand).

This option has no additional professional experience requirements.

This course will be offered in 2018 however the course structure is currently under review.

International Course structure

Course structure

This course offers a variety of career pathways for nurses working in diverse settings and provide opportunities for in-depth study in selected areas of nursing practice.

Students in the Masters program may elect to undertake a specialist area in Chronic Health Conditions or select units from a number of elective options. The remaining studies will include the equivalent of four research-based units.

This course will be offered in 2018 however the course structure is currently under review.

Handbook

Year	2019
QUT code	NS86
Duration (full-time domestic)	1 year
Duration (part-time domestic)	2 years
Campus	Kelvin Grove
Dom. Start Months	February QUT's offer target for this course for Semester 1, 2016 has been reached and no further offers will be made. Interested applicants may submit an application for the Semester 1, 2017 admission period from August 2016.
Course Coordinator	Enquiries to nursing@qut.edu.au or 07 3138 3824
Discipline Coordinator	07 3138 3824 nursing@qut.edu.au

Domestic Entry requirements

Offer target reached for Semester 1, 2016

QUT's offer target for this course for Semester 1, 2016 has been reached and no further offers will be made. Interested applicants are encouraged to submit an application for the Semester 1, 2017 admission period from August 2016.

Academic entry requirement

A completed recognised bachelor degree in nursing; *and*

A graduate certificate in nursing (or equivalent) in the area of nominated specialty; *and*

Current registration as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

Additional entry requirement

- You must have a minimum of five years full-time equivalent recent clinical practice experience as a registered nurse including three years full-time equivalent experience in a specialty area and two years full-time equivalent experience at an advanced practice level in the nominated specialty area.
- You must also provide evidence of professional leadership activity, for example, a brief curriculum vitae, evidence of conference presentations, etc.
- You must be employed at least 0.6 full-time equivalent in an advanced practice nursing role.
- In addition to supporting evidence of meeting entry requirements, applicants will be required to provide supporting documentation from a minimum of two clinical support team members (one of which must be a nurse working in an advanced practice role) and their Executive Director of Nursing (or equivalent) that will confirm their support for the applicant to undertake the required studies. Applicants will, therefore, need to maintain their employment status for the duration of the course.
- Applicants must provide a fully completed [NS86 Master of Science Nurse Practitioner Additional Entry Requirements Pack](#) with their Postgraduate Admission Application Form ([PG-form](#)).

Limited places

There are limited Commonwealth Supported places in this course. Places

are likely to fill early so you are encouraged to apply for this course as soon as possible to secure a place.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Professional recognition

The course meets the requirements for accreditation by the Australian Nursing and Midwifery Accreditation Council (ANMAC). Graduates will be eligible to apply for endorsement by the Nursing and Midwifery Board of Australia to practise as a nurse practitioner in Australia.

International Student Entry

The course is not available to international students.

Further Information

For information about this course, please call the School of Nursing on +617 3138 3824 or email nursing@qut.edu.au

Domestic Course structure

This course can be completed by internal or external mode, full time (one year) or part time.

Students will complete eight units of study consisting of six core units, and an internship over two units. The internship will provide extended, supervised and supported clinical practice exposure to consolidate and apply coursework learning.

Students will be required to attend an on-campus residential school each semester during the course relevant to their unit enrolment.

Domestic Entry requirements

Academic entry requirements

Completion of QUT's [Bachelor of Vision Science](#).

Additional information

All current QUT Bachelor of Vision Science graduands will automatically receive an offer to start within three weeks of the current semester two results being released.

International Entry requirements

Academic entry requirements

Successful completion of QUT's Bachelor of Vision Science with a minimum grade point average (GPA) of 4.0 on QUT's 7 - point scale.

Students who have not completed QUT's Bachelor of Vision Science

The Master of Optometry course provides the second component of the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree entry-level program which leads to registration as an optometrist for practice in the optometry profession in Australia. It is not designed to provide qualified optometrists with a masters level qualification.

If you already have an optometry qualification and are seeking to practice as an optometrist in Australia, you should contact the Optometry Council of Australia and New Zealand (www.ocanz.org) regarding the assessment process for overseas trained optometrists wishing to practice optometry in Australia. If you wish to obtain an Australian optometry qualification then you will need to apply for the OP45 Bachelor of Vision Science/OP85 Master of Optometry dual degree award. Your previous overseas studies in optometry may be considered for advanced standing towards the five-year program.

Your application for OP45/OP85 should include:

- Details of your Optometry/Vision Science undergraduate degree including course overview and unit outlines.
- Details of any assessment regarding your qualifications you may have received from the Optometry Council of Australia and New Zealand

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

The dual degree program Bachelor of Vision Science/ Master of Optometry meets the requirements for accreditation by the Optometry Council of Australia and New Zealand. Graduates of the program meet the requirements for registration by the Optometry Board of Australia.

Students must complete the Master of Optometry as well as the Bachelor of Vision Science to be eligible for registration.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website: <http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Optometry Board of Australia website <http://www.optometryboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at www.ahpra.gov.au

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Further information

For information about this course, please call the School of Optometry on +61 7 3138 4697 or email optometry@qut.edu.au

Domestic Entry requirements

A bachelor degree in a relevant area (or equivalent) from a recognised institution.

Applicants may be admitted on the basis of relevant work experience, other qualifications, or professional or research experience at the discretion of the Head, School of Public Health and Social Work.

International Entry requirements

A bachelor degree in a relevant area (or equivalent) from a recognised institution.

Applicants may be admitted on the basis of relevant work experience, other qualifications, or professional or research experience at the discretion of the Head, School of Public Health.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Study Areas

Specialised streams of study are offered in the areas of:

- Emergency and Disaster Management
- Quality and Patient Safety
- Risk Management *

There is also the option of not completing a study area and choosing units from more than one stream.

* Some units are available only in external mode

Course Articulation

The Graduate Diploma in Health Management fully articulates into the Master of Health Management. Students may be able to exit early with a Graduate Diploma in Health Management or a Graduate Certificate in Health Science depending on their choice of units.

Further Information

For information about this course, please call the School of Public Health and Social Work on +61 7 3138 5856 or email

publichealth@qut.edu.au

Domestic Course structure

This structure is currently under review. From 2015 it is expected that students will undertake a mix of core units, specialist study area units and the equivalent of one semester (48 credit points) of research studies that will include a 24 credit point research project.

Students may elect to undertake a 48 credit point dissertation unit in place of the research.

Study areas

The following study areas are offered:

- Emergency and Disaster Management
- Health Services Management
- Quality and Patient Safety
- Risk Management
- a cross-specialisation (where no study area is undertaken but students study across a variety of fields).

International Course structure

Domestic Course structure

Students who have been awarded advanced standing and are undertaking

the 1.5 year program are required to complete a total of 144 credit points for the award of the degree.

- You must complete six core units and one research methods unit.

- You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.

- If you wish to undertake a specialisation, then you will need to complete two core units from the specialisation and undertake your project or internship in that field.

- You may choose electives from across the program to complete your 144 credit points.

Students undertaking the 2 year program are required to complete 192 credit points of study.

- You must complete six core units and one research methods unit.

- You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.

- If you wish to undertake a specialisation, then you will need to complete at least two core units from the specialisation and either complete two other units from the choices available or undertake your project or internship in that field.

Students who wish to proceed to a research higher degree (e.g. PhD) should undertake a dissertation.

Professional recognition

The program is designed to meet the accreditation requirements of The Australasian College of Health Service

Managers (ACHSM) subject to their experiential and other requirements.

The MHM also meets the academic component for medical practitioners who are seeking Fellowship of the Royal Australasian College of Medical Administrators (RACMA). Obtaining Fellowship is subject to the other experiential and examination requirements of RACMA.

International Course structure

Students who have been awarded advanced standing and are undertaking the 1.5 year program are required to

Master of Health Management

complete a total of 144 credit points for the award of the degree.

· You must complete six core units and one research methods unit.

· You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.

· If you wish to undertake a specialisation, then you will need to complete two core units from the specialisation and undertake your project or internship in that field.

· You may choose electives from across the program to complete your 144 credit points.

Students undertaking the 2 year program are required to complete 192 credit points of study.

· You must complete six core units and one research methods unit.

· You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.

· If you wish to undertake a specialisation, then you will need to complete at least two core units from the specialisation and either complete two other units from the choices available or undertake your project or internship in that field.

Students who wish to proceed to a research higher degree (e.g. PhD) should undertake a dissertation.

Professional recognition

This course is not available to international students.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The Master of Counselling is offered on a full-time basis over two years or a part-time basis over three or four years. Units are delivered in intensive, evening and

weekend format.

This course has an applied, experiential focus which features brief solution-focused and narrative therapies, family therapy, process-experiential therapy, group work and supervision. Student learning is supported by facilitated small group work which offers a strong practical component and students will use the purpose-built Psychology and Counselling Clinic for clinical practice.

Domestic Entry requirements

Academic entry requirements

A completed recognised four year bachelor degree in psychology completed within the last 10 years with a minimum grade point average (GPA) score of 5.5 (on QUT's 7 point scale); *and*

A minimum fourth year psychology units grade point average (GPA) of 5.5 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

The bachelor degree is accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a four year training (or equivalent) program. For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

Applicants with overseas qualifications must provide certification from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to APAC-approved, four year training in psychology.

The Australian Psychological Society advises the average processing time is eight weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional entry requirement

- Ask two referees to provide us with confidential reports via the [Psychology Reference System](#); Please note: This [system](#) is the same across many Australian universities. To be able to use the system, you will need to have an active annual subscription. The cost is \$25.00 and can be paid for through the "My Account" section in the payment tab.
- Successful [questionnaire \(PDF file, 336 KB\)](#)
- Successful interview

Additional information

Entry to this course is competitive. Applicants are shortlisted in priority order on the basis of their GPA, referee reports and questionnaire. Shortlisted applicants will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal skills in a clinical context. Admission is based on GPA, interview, questionnaire, and referee reports.

Closing date

30 September: applications and/or supporting documentation (excluding

current semester results) will not be accepted after this date.

International Entry requirements

Academic entry requirements

A completed recognised four year bachelor degree in psychology completed within the last ten years with a minimum grade point average (GPA) score of 5.5 (on QUT's 7 point scale); *and*

A minimum fourth year psychology units grade point average (GPA) of 5.5 (on QUT's 7 point scale) in your psychology bachelor degree; *and*

The bachelor degree is accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a four year training (or equivalent). For example, QUT's [Bachelor of Behavioural Science \(Honours Psychology\)](#) degree.

It is recommended that one report be from your fourth-year thesis supervisor.
2. Successful [questionnaire \(PDF file, 336 KB\)](#)
3. Successful interview

Additional information

Entry to this course is competitive. Applicants are shortlisted in priority order on the basis of their GPA, referee reports and questionnaire. Shortlisted applicants will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus or via telephone or skype in late October/early November to assess their

Master of Clinical Psychology

interpersonal skills in a clinical context. Admission is based on GPA, interview, questionnaire and referee reports.

Closing date

Entry into this course is competitive and applications have an early closing date of 30 September of the previous year.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)	
Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Professional recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:
<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Psychology Board of Australia website:
<http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Registration requirements

All students seeking registration with the Psychology Board of Australia as a registered psychologist will be required to register as a psychologist with probationary conditions for the duration of the program. Students should apply to the Board as soon as possible to ensure that registration is completed prior to commencement of the program.

Please refer to the Psychology Board of Australia website
<http://www.psychologyboard.gov.au/Registration-Standards.aspx> for information on the Board's Registration Standards.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +61 7 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The coursework component of this program provides training on how to assess and diagnose clinical presentations. It provides unique training on how to conceptualise and treat a broad range of child and adult clinical presentations from relational psychodynamic, cognitive-behavioural, and systemic narrative therapeutic approaches.

Clinical placements begin in the first semester with an internship spanning the first year. Students complete the internship under intense supervision at the specialised [Psychology and Counselling Clinic](#) at QUT's Kelvin Grove campus. During the internship, students gain experience in assessing and treating a range of clinical cases across the lifespan.

Once students are deemed competent through the internship, they continue their clinical training with external placements in hospitals, community agencies and a variety of child and adult mental health settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

Domestic Course structure

This course is offered jointly by the Faculty of Health and Faculty of Education.

The coursework component provides training in assessment, diagnosis and intervention in the area of educational and developmental issues across the lifespan, with an emphasis on the school years. Students undertake two internships that are linked with a client base from the Catholic education system and from the [Psychology and Counselling Clinic](#) at QUT's Kelvin Grove campus. Following these internships, students undertake a further two external placements in other environments including schools, mental health and community settings.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

Domestic Entry requirements

Academic entry requirements

A completed recognised bachelor degree which includes the equivalent of one year (8 units) of full-time studies in social sciences such as:

- Psychology
- Education
- Law
- Human Services

Note

This course is not designed for students who already have a bachelor degree in social work.

QUT recognises that not all overseas social work qualifications will meet the professional requirements to gain membership with the Australian Association of Social Workers (AASW) and we will consider applications from overseas qualified applicants for this course.

Applicants who are qualified Social Workers in their country of residence should also contact AASW (<http://www.aasw.asn.au/>) to determine the study they may need to undertake to be eligible for membership in Australia. This assessment may indicate that it will not be necessary for you to complete the full two years of study and you may be eligible for some advanced standing towards your study.

International Entry requirements

Academic entry requirements

A completed recognised bachelor degree which includes the equivalent of at least one year of full-time studies in social sciences, for example:

- studies in society
- human development
- culture such as arts
- commerce
- education
- health
- law
- media and communication
- psychology
- sociology
- urban and regional planning.

Note: This course is not designed for students who already have the equivalent of a bachelor in social work, however, QUT recognises that not all overseas social work qualifications will meet the professional requirements to

gain membership with the Australian Association of Social Workers (AASW) and will consider applications from overseas qualified applicants for this course.

Applicants who are qualified social workers in their country of residence should also contact AASW (<http://www.aasw.asn.au/>) to determine the study they may need to undertake to be eligible for membership in Australia. This assessment may indicate that it will not be necessary for you to complete the full two years of study and you may be eligible for some advanced standing towards your study.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	7.0
Listening	6.5
Reading	6.5
Writing	6.5
Speaking	6.5

Professional recognition

Graduates will be eligible for membership with the Australian Association of Social Workers (AASW).

Attendance requirements

Students are required to attend compulsory on-campus sessions each semester. This includes a requirement to attend sessions during Orientation Week. All commencing students need to ensure they are available to attend each day from 9am to 5pm.

Other all-day workshops and classes may be held during semesters (including Saturdays) and information will be available via the class timetable.

Other course requirements

There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

Some of these requirements have associated costs. Information is available from the [Additional course requirements and costs](#) website.

Course articulation

Students admitted to the Master of Social Work may be eligible to exit early with a Graduate Diploma in Social Care (exit only course) or a Graduate Certificate in Social Care (exit only course), depending on choice of units.

Further information

For further information call the School of Public Health and Social Work +61 7 3138 4697 or email socialwork@qut.edu.au

Domestic Course structure

The Master of Social Work - Qualifying consists of 15 units and can be studied full-time (two years) or part-time (four years). Students undertaking the part-time option may complete Summer Program offerings to accelerate their course completion.

The course includes a minimum 1000 hours of field placements supervised by a professional social worker. These placements are undertaken over three practice units.

This course will be offered in 2018 however the course structure is currently under review.

Academic entry requirements

A completed recognised bachelor honours degree including a major relevant to the intended area of study; *or*

A completed recognised bachelor degree (or equivalent) including a major relevant to the intended area of study with a minimum grade point average (GPA) score of 5.0 (on QUT's 7 point scale) *and* relevant professional and/ or research experience as determined by Faculty.

Research proposals must be submitted with your application. Proposed research projects are subject to supervisor availability and resources available within the faculty to support the proposed research topic.

How to apply

Applicants are asked to nominate a supervisor and topic when submitting a formal application. An application is likely to be more successful where a supervisor and topic are well matched.

Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as described on the [QUT Health Faculty website](#). Applicants are encouraged to contact the postgraduate research enquiries team for assistance at (health.research@qut.edu.au)

This contact should include a transcript of academic records, the topic area which you wish to study, the school in which you wish to undertake your research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask you for further information to assist with your enquiry. The information will be passed onto the nominated (or relevant) school or supervisor.

Research proposals must be submitted with your application. Proposed research projects are subject to supervisor availability and resources available within the faculty to support the proposed research topic.

Application Guide

Applicants are asked to nominate a supervisor and topic when submitting a formal application. An application is likely to be more successful where a supervisor and topic are well matched.

Applicants should ensure that there is a genuine fit with the potential supervisor's research interests by looking at the interests of the researchers within the relevant school as described on the [QUT Health Faculty website](#). Applicants are encouraged to contact the postgraduate research enquiries team for assistance at (health.research@qut.edu.au)

This contact should include a transcript of academic records, the topic area which you wish to study, the school in which you wish to undertake your research, and if known, the name of a potential supervisor. The HDR Admissions Officer may ask you for further information to assist with your enquiry. The information will be passed onto the nominated (or relevant) school or supervisor.

Application Submission

You can submit an application using the [FR Form](#). Applications can be emailed to

QUT Admissions

(qut.intadmission@qut.edu.au).

Applications must include all supporting documentations including your detailed research proposal.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	6.5
Listening	6.0
Reading	6.0
Writing	6.0
Speaking	6.0

Further Information

For more information about this course, please contact the Faculty on +617 3138 8290 or email health.research@qut.edu.au

Domestic Course structure

A masters by research is an opportunity to conduct a significant piece of supervised research. Students complete relevant coursework, prepare a research hypothesis and methodology, and present the results of their research in a thesis. Masters students develop high level skills in critical evaluation and research methodology and acquire extensive knowledge in a specialist area. The course equips students for entry into the Doctor of Philosophy.

Students must complete IFN001 Advanced Information Research Skills and a time-based thesis.

Study can be undertaken in full-time or part-time mode with internal and external study options. The expected course duration is 1.5 years full-time or part-time equivalent. The maximum period of enrolment is two years full-time or part-time equivalent.

Study areas

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. [See our current student topics.](#)

Key areas of research strength include:

Injury prevention and trauma management

- injury prevention

- orthopaedics, trauma and emergency
- tissue repair and regeneration

Health determinants and health systems

- behavioural neuroscience and mental health
- child and adolescent health
- environmental health
- health services
- healthy lifestyles

Chronic disease and ageing

- cancer and molecular medicine
- chronic conditions and management
- infectious diseases
- healthy ageing, dementia and palliative care
- vision and eye.

Domestic Course structure

Mandatory units

You'll need to complete:

- a time-based thesis
- IFN001 Advanced Information

Research Skills.

You may need to complete other units that are recommended by your faculty, negotiated with you and based on the skills gaps identified in your research degree skills audit.

Study areas

Your faculty may have several specialisations (study areas) that your research will align with. This will appear on your testamur at graduation:

Business

- Master of Philosophy (Accountancy)
- Master of Philosophy (Advertising)
- Master of Philosophy (Economics)
- Master of Philosophy (Entrepreneurship and Innovation)
- Master of Philosophy (Finance)
- Master of Philosophy (Human Resource Management)
- Master of Philosophy (International Business)
- Master of Philosophy (Management)
- Master of Philosophy (Marketing)
- Master of Philosophy (Philanthropy and Nonprofit Studies)
- Master of Philosophy (Public Relations)

Creative Industries

- Master of Philosophy (Design)
- Master of Philosophy (Communication)
- Master of Philosophy (Creative Practice)

Education

- Master of Philosophy (Education)

Health

- Master of Philosophy (Biomedical Sciences)
- Master of Philosophy (Exercise Sciences)
- Master of Philosophy (Nursing)
- Master of Philosophy (Nutrition and Dietetics)
- Master of Philosophy (Optometry)
- Master of Philosophy (Paramedicine)
- Master of Philosophy (Pharmacy)
- Master of Philosophy (Physical Education)
- Master of Philosophy (Podiatry)
- Master of Philosophy (Public Health)
- Master of Philosophy (Psychology)
- Master of Philosophy (Radiology)
- Master of Philosophy (Social Work)

Law

- Master of Philosophy (Law)
- Master of Philosophy (Justice)

Master of Philosophy

Science and Engineering

- Master of Philosophy (Engineering)
- Master of Philosophy (Information Technology)
- Master of Philosophy (Mathematics)
- Master of Philosophy (Science)
- Master of Philosophy (Urban Development)

Handbook

Year	2019
QUT code	HL90
CRICOS	037680K
Duration (full-time)	3 years
Duration (part-time domestic)	6 years
Campus	Kelvin Grove
Total credit points	288 (96 coursework credit points and 192 research thesis credit points)
Credit points full-time sem.	48 (average)
Start months	July, February
Int. Start Months	July, February
Course Coordinator	Enquiries to health.research@qut.edu.au or 07 3138 8290
Discipline Coordinator	07 3138 8290 health.research@qut.edu.au

Domestic Entry requirements

- Four-year bachelor degree (or equivalent) with first-class honours or second-class honours division A
- Masters degree (or equivalent) in a relevant area
- Two years of professional practice in a position of appropriate professional responsibility.

At the discretion of the Executive Dean, candidates who do not have sufficient professional practice may be required to gain this experience during the course of the doctorate.

Before submitting an application, potential candidates should contact the course coordinator who will assist in the preparation of the application.

Candidates should apply on the appropriate form, supplying specified documentation. The application should be accompanied by a brief proposal for the course of study and the research field.

Further Information

For more information about this course, please contact the Faculty of Health on phone +617 3138 8290 or email health.research@qut.edu.au

Domestic Course structure

Students undertake 96 credit points of coursework units and a time based research component (minimum 2 years full time or equivalent).

The course of study may include the following coursework units:

- choose one of the major study areas
- complete two units in research methods
- complete one unit in theoretical frameworks
- complete four units from the major study area plus one approved elective unit, or complete five units from the major study area
- students are required to attend a compulsory one-day forum annually during their candidature.

A maximum of 72 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent.

Study areas

- Health Promotion
- Health Services Management
- Nursing
- Occupational and Environmental Health Sciences
- Public Health.

International Course structure

Students undertake 96 credit points of coursework units and 192 research portfolio credit points. The coursework is chosen from the major study areas and must be completed before proceeding to the research component.

To achieve the appropriate advanced levels students must:

- choose one of the major study areas
- complete two units in research methods
- complete one unit in theoretical frameworks
- complete four units from the major study area plus one approved elective unit, or complete five units

Doctor of Health Science

from the major study area

- students are required to attend a compulsory residential program of three days annually during their candidature.

A maximum of 72 credit points may be granted to candidates who have completed an appropriate masters qualification or its equivalent.

Study areas

- Health Promotion
- Health Services Management
- Nursing
- Occupational and Environmental Health Sciences
- Public Health.

Domestic Entry requirements

Academic entry requirements

You must have either:

- a completed recognised relevant honours degree or equivalent
- a completed recognised masters degree or professional doctorate (by research or coursework)

Masters and professional doctorate degrees by coursework must have a significant research component, normally not less than 25%. Holders of masters and professional doctorate by coursework must:

- have a minimum grade point average (GPA) score of 5.0 on QUT's 7 point scale; *and*
- present evidence of research experience and potential for approval

Admission to the Doctor of Philosophy depends on an applicant's demonstrated research aptitude and the availability of supervision, infrastructure and resources needed for the proposed research project.

Once you've started your PhD, you'll need to complete your Stage 2 milestone to be fully admitted to your course. You'll usually complete this milestone within the first three months of study.

For more information on eligibility, read the [admission criteria for the Doctor of Philosophy \(PDF, 98.5KB\)](#).

Domestic Course structure

Mandatory:

- time based thesis
- IFN001 Advanced Information Research Skills.

Other units as agreed by student in negotiation with their supervisor and faculty.

Study areas

Doctoral studies may be completed in any area of research supported by the Faculty of Health.

Health research at QUT is focused on those areas that impact significantly on the health of individuals and communities. We have a student research topic database to help you search for research projects and supervisors in your area of interest. [See our current student topics.](#)

Key areas of research strength include:

Injury prevention and trauma management

Doctor of Philosophy (Hosted by Faculty of Health)

- injury prevention
- orthopaedics, trauma and emergency
- tissue repair and regeneration.

Health determinants and health systems

- behavioural neuroscience and mental health
- child and adolescent health
- environmental health
- health services
- healthy lifestyles.

Chronic disease and ageing

- cancer and molecular medicine
- chronic conditions and management
- infectious diseases
- healthy ageing, dementia and palliative care
- vision and eye.

Course Coordinator	Enquiries to psychology@qut.edu.au or 07 3138 4520
Discipline Coordinator	07 3138 4520 psychology@qut.edu.au

Domestic Entry requirements

Academic Entry Requirements

- Completed a recognised psychology honours degree (or higher) with first and upper second class honours; or
- Completed a recognised Postgraduate Diploma in Psychology (or equivalent) with a grade point average (GPA) of at least 5.5 (on a 7 point scale)
- The degree must be accredited by the [Australian Psychology Accreditation Council \(APAC\)](#) as a 4-year training (or equivalent) program; e.g. PY09 Bachelor of Behavioural Science (Honours Psychology) at QUT
- Applicants with overseas qualifications must provide certification from the [Australian Psychological Society \(APS\)](#) stating their degree is equivalent to APAC-approved, 4-year training in psychology. Please note APS advises the average processing time is 8 weeks, therefore applicants with overseas qualifications need to seek certification by no later than July.

Additional Entry Requirements

- 2 completed [referee reports \(PDF file, 357 KB\)](#)
- Completed [questionnaire \(PDF file, 338 KB\)](#)
- Interview - if shortlisted

Early Closing Date

Applications close on 1 October. Applications, referee reports and/or questionnaires received after this date will not be accepted.

Additional Information

Applicants are shortlisted in priority order on the basis of their grade point average (GPA), referee reports and questionnaire. Shortlisted applicants will be contacted in mid-October to attend an in-person interview at the Kelvin Grove campus in late October/early November to assess their interpersonal and research skills in a clinical context. Admission is based on grade point average (GPA), interview, questionnaire, and referee reports.

Note

There will be no further intakes into this program after 2014.

Limited Places:

QUT only offers a limited number of places in this course and these places are

likely to fill early. Once filled QUT will not be making any further offers. You are therefore encouraged to apply as soon as possible after July.

International Entry requirements

Entry to this course is competitive. Applications close on 1 October. To be considered for admission you must have:

- [Australian Psychology Accreditation Council \(APAC\)](#) - approved four-year training (or equivalent) with first-class honours or second-class honours Division A from a recognised institution, or
- minimum grade point average (GPA) of 5.5 (on a 7-point scale) in the Postgraduate Diploma in Psychology (or equivalent).

All applicants must also:

- provide two referee reports
- attend an interview to assess interpersonal and research skills in a clinical context

How to apply

You must submit the following by 1 October:

- Completed F Form
- Attached all relevant documents as requested in the F Form (eg academic transcript and award certificates)
- Attach your [Australian Psychological Society \(APS\)](#) letter showing the assessment outcome of your Psychological Qualifications. The Australian Psychological Society (APS) assesses the level at which an applicant's overseas qualifications are comparable to an Australian Psychology Accreditation Council (APAC) - accredited sequence of study in psychology. To have your qualification assessed please contact APS. More information is available on the [Australian Psychological Society \(APS\) website](#).
- Attach your completed [PG Psychology Questionnaire 2014 \(PDF file, 338.17 KB\)](#)
- Attach two [Master of Psychology and Doctor of Psychology referee report 2014 \(PDF file, 356.69 KB\)](#)

If you are shortlisted you will be contacted for a telephone interview.

You will be notified of the outcome late December or early January.

Note

There will be no further intakes into this program after 2014.

Minimum English requirements

Students must meet the English proficiency requirements.

IELTS (International English Language Testing System)

Overall	7.0
Listening	7.0
Reading	7.0
Writing	7.0
Speaking	7.0

Discontinuation of the course

This course has been discontinued and no new admissions will be accepted from first semester 2015.

Professional Recognition

The course meets the requirements for accreditation by the Australian Psychology Accreditation Council and the Australian Psychological Society College of Clinical Psychologists. Graduates meet the requirements for registration by the Psychology Board of Australia.

The Australian Health Practitioner Regulation Agency (AHPRA) requires that graduates demonstrate English language skills at IELTS level 7 or equivalent before being considered for professional registration. For further information visit the AHPRA website:
<http://www.ahpra.gov.au/Registration/Registration-Process/Registration-Requirements.aspx>

Please refer to the Psychology Board of Australia website:
<http://www.psychologyboard.gov.au/Registration-Standards.aspx> for additional information on the Board's Registration Standards.

Course Articulation

The option to exit early with a Master of Clinical Psychology is available, subject to successful completion of the required units.

Further Information

For more information about this course, please contact the School of Psychology and Counselling on +617 3138 4520 or email psychology@qut.edu.au

Domestic Course structure

The doctorate comprises 24 units made up of 10 professional coursework units, eight research units and six practicum units.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).

International Course structure

The doctorate comprises 24 units made up of 10 professional coursework units, eight research units and six practicum units.

To undertake the supervised practice, students need to provide evidence of provisional registration as a psychologist with the Psychology Board of Australia and hold a current blue card as required by the Commission for Children and Young People and Guardian Act (2000).
